AFFORDABLE PERFORMANCE

450 BOOTS

Designed in Italy, the 450 boot is built with top grain leather and offers maximum support and comfort right out of the box. The 450 boot offers a low profile toe box that allows for easy shifting and an over molded outsole for added durability. This boot is the top choice for any serious rider.

FEATURES

- Maximum support and comfort right out of the box
- Low profile toe box design
- Anatomically designed to fit the shape of the lower leg
- Designed in Italy
- Leather heat shield
- Molded outsole provides durability
- Full floating independent and adjustable straps
- Reverse lower buckle protected from outside impact
- Top grain leather construction
- Sizes adult US 6-13

SCOTT MX APPAREL
THE GEAR YOU NEED TO GET THE JOB DONE

450 RACEWEAR

SCOTT's 450 apparel is the top of the line. Made with the best materials available, the 450 line is the most functional and stylish gear around.

SCOTT 450 JERSEY

The 450 Jersey is highly ventilated and features padded elbows for abrasion protection without losing mobility. From the collar to the cuffs, this jersey was designed with riding in mind, resulting in a super-light, super-comfortable and highly stylized jersey. Years of product testing results in performance you can count on.

MATERIAL: 100% Polyester.

FEATURES

- All new fit with sublimated graphics
- Lycra collar
- Large vented side panels
- Raglan sleeve with padded elbow
- Lycra cuff for snug fit
- Silicon embossed drop tail for a grip fit
- Piping detail
- Woven label
- Di collar logo

SCOTT 450 PANTS

The 450 Pants has an all new fit that is light and extremely breathable. The pants features premium leather knee reinforcement and is specially shaped for an aggressive riding stance. Other features like a ½ length inner mesh liner, adjustable Velcro waist tabs and improved airflow make the 450 pants the most comfortable pants you'll ever ride in.

MATERIAL: 900D Nylon, ½ mesh liner, leather inner knees, Nylon outer knee.

FEATURES

- All new fit and design
- Articulated pre bent fit
- Accordion nylon upper knee
- Leather knees
- Natural lower leg cuff
- Larger knee area will accommodate all MX knee braces
- Stretch inner liner
- Laser cut perforated thigh panel
- Silicon grip on inner waistband to eliminate slippage due to gripper / step seats
- Articulated Velcro stretch waist closures for a perfect adjustable fit
- 900-D Cordura inner lining on knee leather to eliminate knee brace wear
- Full mesh lower leg for maximum inner boot air ventilation
- Micro adjustable ratchet closure
- Inner liner ½ mesh featuring back yoke lycra stretch

SCOTT 2013 MX
PROTECTION

PREPARE & PREVENT

PROTECTION TECHNOLOGIES

NEW SCOTT COMMANDER BODY ARMOR

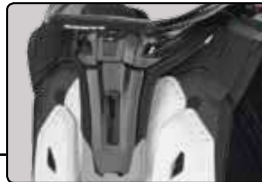

The Scott Commander sets new standards with innovative, lightweight high impact absorbent materials placed in key areas which offer an adjustable ergonomic fit and unprecedented comfort.

The Scott Commander Body Armor fulfills all required safety standards and offers the all new revolutionary Scott neck brace integration concept for precise incorporation of your Neck Brace, allowing maximum movement and comfort due to the independent floating thoracic plates (patent pending).

No more complicated adjustments or need to modify/remove plates in order to adapt to a Neck Brace. Just put your Neck Brace on top of the armor and attach with the brace straps and you are ready to go.

BACK PROTECTOR : CE EN 1621-2 LEVEL 1 CERTIFIED

FULL LEATT COMPATIBLE

The top back plates are split in two for a better mobility and they are connected with a stretchable link to emphasize the flex between the central plate and the side plate.

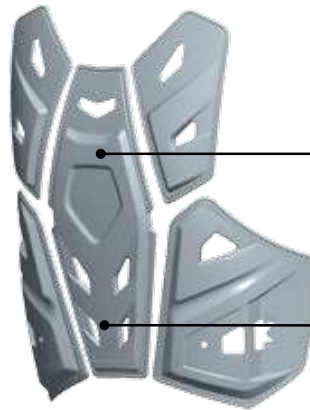

TOTAL MOBILITY

The slot connections of the plates are wider to allow a better rotational movement and the foam layer has a special shape to ensure greater freedom of movement.

HIGHLY VENTILATED

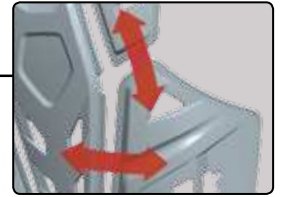

The combination between large vents and opened mesh fabric offers more breathability while keeping you cool.

CHEST PROTECTOR : CE EN 14021 CERTIFIED

FULL LEATT COMPATIBLE

The front plates are specially designed to incorporate the Neck Brace.

COMFORTABLE FIT:

The front is split in 5 protective plates to ensure maximum range of movement To give the perfect fit.

SCOTT NECK BRACE INTEGRATION CONCEPT (PATENT PENDING, AVAILABLE ON THE COMMANDER BODY ARMOR)

The all new Scott neck brace integration concept with articulating brace plates and the brace strap system offers a perfect incorporation of your Neck Brace without any need of removing plates or modification of the Armor. This is a world first. Just put your Neck Brace on top of the armor and attach with the brace straps and you are ready to go. The innovative shock absorbing materials used on our new Commander allows maximum lightweight construction. The back protector system passes level 1 CE 1621-2 motorcycle standard, as well the front chest protector passes the CE 14021 standard. It is a fully CE standard approved protector.

ARTICULATED AND HIGH IMPACT RESISTANT PLASTIC PLATES

Hard plates are made from a plastic material known for high resistance to shock and abrasion. The 3 plates system on the back allows perfect incorporation for Neck Braces with the back protector PATENT PENDING

BODY ARMOR SCOTT COMMANDER

Code: #221210

Sizes Available: S/M, M/L, L/XL

The Commander Body Armor offers neck brace integration construction. Articulated plates on the back panel alleviate excess pressure and discomfort when wearing a neck brace. The vented, articulated places allow for the back of any brace to be worn comfortably without interfering with the protector. It can be worn under or over the rider's jersey.

FEATURES

- Neck brace integration
- Flex panels
- Shoulder adjustment
- Waist adjustment
- Ratchet micro adjustable closure
- Ultra vented and breathable with inner mesh construction
- Ultra-light and minimalist volume
- Flexible and ergonomic pre shaped front protector
- Adjustable shoulder straps length with smart Velcro system
- Approved CE EN1621-2(back), EN14021(chest)

SCOTT VERTABRAE PROTECTIVE TECHNOLOGY

SCOTT VERTABRAE PROTECTIVE SYSTEM: THE BEST PROTECTION

The Scott Vertebrae Protective System combines innovative hard outer plates with a structural layering system allowing the protector to move with the body. The plate system mimics the vertebrae articulating in three axes to ensure free lateral, extension and compression movements resulting in complete freedom of movement and the highest level of protection.

FULLY ARTICULATED HARD PLATES
 Made with a plastic material with a high resistance to shock and abrasion. These connect with an innovative riveted system to flex with the body in order to maximize movement.

HONEYCOMB LAYER
 Lightweight structure that protects high energy impact and ensures maximum breathability.

STRUCTURAL LAYER
 Smart foam distributes shock over the entire protective surface and promotes movement based on its geometrical shape.

JACKET PROTECTOR SCOTT PURSUIT 450

Code: #225592

Sizes Available: M, L, XL

The 450 Pursuit Jacket offers SCOTT's highest level of protection. With a removable forearm and back-plate, as well as shoulder and lumbar adjustment, the Pursuit Jacket can be adjusted to perfection depending on the rider's preferences and the demands of the environment.

FEATURES

- Ventilated plastic back plates with exclusive vertebrae protective plates system
- Side zipper entry
- Removable forearm sleeves and back protector plate
- Adjustable elbow and forearm guard
- Adjustable shoulder width
- Lumbar adjustment and Velcro closure belt
- Neck brace compatible
- Approved CE EN1621-2 Level 2 (back), EN14021(chest), EN1621-2(elbows, shoulders)

NECK BRACE

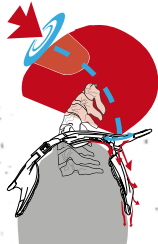

Neck injuries can be of the most serious upper body injuries. The SCOTT NECK BRACE was engineered in collaboration with Leatt®, the market leader and pioneer of the "helmet for your neck". It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident. The SCOTT NECK BRACE is engineered with Leatt®'s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY.

All Scott-Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™. This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head* and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all Scott neck Braces.

In a typical face-plant type accident without a Scott Neck Brace, the force of the impact is transferred from the ground to the helmet, through the helmet to the skull and scull base where it is then transferred through the neck to the back (thoracic spine). With the Scott-Brace fitted, the force will instead transfer from the ground to the helmet, through the helmet onto the Scott Neck Brace once contact is made, some of the force will therefore be transferred to the brace and dispersed to the less vulnerable parts of the torso. If the impact is significant enough, the brace is designed to fail in crumple zones (similar to those seen in cars), thereby helping to absorb some of the energy of the impact.

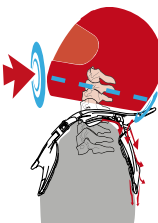

THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

HYPEREXTENSION:
over-bending of the head in rearward direction.

LATERAL HYPERFLEXION:
over-bending of the head to one side.

POSTERIOR HYPERTRANSLATION:
extreme movement of head and helmet, rearward on the neck.

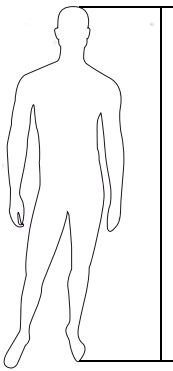

COUPLED AXIAL LOADING
Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

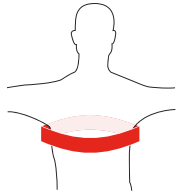

HYPERFLEXION:
over-bending of the head in forward direction.

NECK BRACE SCOTT CARBON PRO

Code: #223738

Sizes Available: S, M

The Neck Brace Scott Carbon Pro neck brace is the pinnacle in neck brace technology! The Carbon Pro brace features a fully ventilated carbon-fiber chassis with completely redesigned, open-cell padding. The Carbon Pro Brace is the lightest, most ventilated and most comfortable brace ever designed.

- Kevlar® reinforced Carbon Fiber Matrix chassis
- New shape, lower-profile padding for improved range-of-motion
- The greatest range of motion of any Scott Neck Brace®
- New open celled light weight Velcro-free padding is removable & washable.
- CE certified PPE directive 89/686/EEC
- Alternative Load Path Technology™, engineered by Leatt®
- Compatible with all full face helmets
- Thoracic strut engineered to snap in severe impact scenarios
- Engineered collarbone cutout to help keep your helmet and brace away from one of your most fragile bones.
- Two red anodized CNC spring loaded aluminium hinges. Its bright red color ensures easy identification by paramedical personnel in an emergency situation
- Crumple zone
- Biomechanical padding to cushion chin
- Fits with most body armors
- Easy fit strap system
- Anatomical design, full adjustable all tools and parts in pack. See to Scott size chart

GOGGLES

2013
SCOTT

SCOTT MX
GOGGLES

SCOTT MX GOGGLES
NOT YOUR FATHER'S GOGGLE

Scott Fit System

Located on the outside of the goggle frame, the patent pending Scott Fit System creates a custom face and nose fit.

Ram venting

Revolutionary Air Management (RAM) is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

'TYRANT' MX GOGGLE

FEATURING THE SCOTT FIT SYSTEM

The new Tyrant Goggle has been carefully engineered to achieve optimum fit, moisture management, and venting. For ease of use, the SCOTT Fit System can now be accessed on the outside of the goggle. To further improve comfort, outriggers have been added to more evenly distribute goggle tension, and to manage perspiration, the Tyrant comes equipped with our proven No Sweat 3.2 face foam. Additionally, we've redesigned our patented RAM air venting system to provide optimal airflow inside the goggle to prevent lens fogging. This goggle also features our exclusive adjustable nose guard and comes with either a clear or chrome WORKS lens.

FRAME FEATURES

Scott Fit System

The patent pending SCOTT FIT SYSTEM is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions to get a customized face and nose fit.

Over The Glasses (OTG)

OTG Goggles offer protection from the elements and an optimized fit for people requiring prescription glasses.

Revolutionary Air Management System (RAM)

RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

Helmet Compatibility

Scott goggles are engineered to engage flawlessly with a variety of helmets.

Adjustable Nose Guard

Exclusive to SCOTT, the Adjustable Nose Guard on the Tyrant adjusts in three different positions allowing riders to configure the guard exactly to their liking.

FACE FOAM CONSTRUCTION

NoSweat 3.2 Face Foam (Patent Pending)

NoSweat 3.2 Face Foam system channels sweat away from the face while relieving pressure from the nose to provide the most advanced sweat protection and comfortable fit on the market. The first foam system integrates the proven 3-layer NoSweat foam across the top half of the goggle. The first layer channels sweat away from the face; the middle layer absorbs sweat; the third fleece layer creates a comfortable fit and seal. The second foam system bonds 2-layer foam to the lower half of the goggle. The first layer of high volume contour molded foam provides cushioning and absorbs sweat. The second fleece layer creates a comfortable fit and seal.

Multi-Layer Face Foam

Scott's Multi-Layer Face Foam incorporates two layers of foam and one layer of fleece, delivering a comfortable performance fit. The first layer features maximum sweat retention properties and provides cushioning from the frame while the second layer ensures a precise comfortable face fit. The third layer provides a comfortable barrier between the goggle and rider's face.

Hypoallergenic Super-Soft Face Foam

Scott's Hypoallergenic Super-Soft Face Foam provides a precise fit around facial features while sealing out the elements. This single density foam is comfortable and has moisture retention properties.

LENS TECHNOLOGY

SCOTT Precision Optics

SCOTT Precision Optics is a quality label which stands for premium materials and innovative manufacturing techniques. This unique combination enables us to offer distortion free, UV protected, high performance lenses of the best quality.

Scott OptiView

Scott OptiView lenses are manufactured in Europe and adhere to the strictest testing standards. Scott's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct.

Scott TruView

Scott TruView lenses are lightweight and block 100% of harmful UV rays. TruView lenses pass Scott's strict testing procedures delivering high-quality, performance lenses in select SCOTT goggles.

100% UV Protection

All Scott lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

No Fog™ Anti-Fog Lens Treatment

Scott lenses undergo a permanent No Fog™ treatment process to prevent condensation and fogging.

Air Control System (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

LENS CONSTRUCTION

STANDARD LENSES

Standard single lenses are constructed from polycarbonate material to maintain impact resistance and provide 100% UV protection. Standard lenses do not include tearoff posts.

WORKS LENSES

WORKS single lenses are built with factory installed WORKS adjustable tearoff pins and can adapt to fit the WORKS film system. WORKS lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

ASYMMETRICAL TEAROFF PIN SYSTEM

The Scott WORKS asymmetrical tearoff pin system is a set of clear tearoff pins where one is a static pin and the other is an oval swivel that allows the rider to micro adjust the tearoff tension using a flat head tool. This adjustment helps perfect the fit and pull away tension per the conditions and rider's preferences. In addition these pins can be easily removed to accommodate our WORKS film canisters.

THERMAL LENSES

A dual pane lens designed to separate the warm air in the goggle chamber from the chilly air outside. All Thermal lenses feature Scott's No-Fog™ Lens Coating, polycarbonate material to maintain impact resistance and provide 100% UV protection. Thermal lenses do not include tearoff posts.

WORKS THERMAL LENSES

Feature WORKS lens technology on a dual pane lens, ideal for cold temperature or high moisture race conditions. WORKS Thermal lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

ACS LENSES

A thermal lens featuring Scott's ACS offset vent holes in the lens to further decrease fogging. ACS lenses are made from polycarbonate material to maintain impact resistance and provide 100% UV protection.

- Back access bladder compartment
- Main compartment
- Audio device pocket
- Hip belt
- Bladder included
- Sternum strap belt
- Ergonomic pre-shaped shoulder straps

[Black/Lime green - 2335]

SCOTT WATERBAG RADIATOR

Code: #225565

The Radiator Hydro Pack is a minimalistic backpack with a water bladder and a few key pockets designed for short trail rides when you need to pack the bare necessities.

MATERIAL

420D Honey Frame
210D Polyester back with padding and venting mesh

WEIGHT

0.55kg

VOLUME

2L

FEATURES

- One main compartment for Scott drink system reservoir
- Ergonomically pre-shaped back with padding and venting mesh
- One central outside zipper pocket for wallet, keys and maps
- Additional tool pocket
- Bladder included
- Sternum strap belt
- Ergonomic pre-shaped shoulder straps

[Black/Lime green - 2335]

SCOTT HIP-BELT QUALIFIER

Code: #225566

The Qualifier hydro pack is a hip-belt design pack that fastens to the waist. An included water bladder with a long hose which can be fixed to the mouth piece of a helmet allows the rider to access a drink without having to stop. Additional storage pockets for tools make the Qualifier hydro pack perfect for competition or a long day on the trails.

MATERIAL

420D Honey frame
210D Polyester

WEIGHT

0.54kg

VOLUME

3L

FEATURES

- Several compartments
- Tool attachment loops
- Compression straps
- Fixation flap for connection compatibility of the Rider back pack
- Hip belt
- Bladder included
- Elastic-based hip-belt strap
- Strap to attach a helmet

[Black/Lime green - 2335]

[Black/Red - 1042]

SCOTT HELMET BAG

Code: #225570

The Helmet shaped bag is perfect for protecting your helmet from scuffs and scrapes and features ventilated mesh to help ventilate the helmet after a day on the track or trail.

MATERIAL

420D Honey frame
210D Polyester
800D x 600D Diamond PVD

WEIGHT

0.34kg

VOLUME

1 helmet

FEATURES

- Ventilated helmet bag for one helmet
- Fits all sizes
- Neoprene inserts

[Black/Lime green - 2335]

SCOTT BOOT BAG

Code: #225569

The Boot bag is the perfect way to store your boots without having to pack them in your gear bag with the rest of your gear and dirty it. The zip flap can be utilized as a foot mat and key ventilation holes keep your boots aired out so they don't get the dreaded boot funk smell.

MATERIAL

420D Honey frame
210D Polyester
800D x 600D Diamond PVD

WEIGHT

0.44kg

VOLUME

1 pair of boots

FEATURES

- Padded boot-bag one pair of boots
- Ventilation holes
- Zip flap can be used as foot mat

[Black/Lime green - 2335]

SCOTT GEAR DUFFLE

Code: #225574

The roller gear bag has features that make packing your gear around easy. With skateboard wheels and a telescoping handle pulling your gear around will no longer be a hassle. Additional features such as a concealed zipper pocket with a pull out mat to stand on while changing and enough compartments and pockets to store all your gear the Scott roller gear bag makes packing your gear a simple task.

MATERIAL

600D Polyester
840D Polyester
210D Polyester
800D x 600D Diamond PVD

WEIGHT

4.0kg

VOLUME

130L

FEATURES

- Telescopic handle
- Replaceable skate board wheels
- Padded boot compartment
- Padded helmet compartment
- Ventilation rivets for the side compartments
- Main compartment
- Zippered top flap pocket
- Side outer pocket
- Foot mat
- Separate padded helmet compartment with ventilation holes

[Black/Lime green - 2335]

SCOTT PADCASE

Code: #225573

The Pad case is a perfect carrying case to hold and protect your helmet, neck brace and goggles. It is yet another bag that allows you to separate your gear rather than packing everything into the same bag where it becomes unorganized.

MATERIAL

420D Honey frame
210D Polyester
800D x 600D Diamond PVD

WEIGHT

1.6kg

VOLUME

45L (1 pair boots, 1 helmet, 2 goggles)

FEATURES

- Foldable padded box
- Space for helmet, neck-brace, goggles and extra lenses
- Ventilation holes
- Removable padded compartment dividers

[Black/Lime green - 2335]

SCOTT GYM DUFFLE

Code: #225575

The Gym Duffle is a compact duffle bag great for those workouts during the week. Pack up your workout gear and head to the Gym.

MATERIAL

[Black/White-1007]

GRIPS

SCOTT Grips range from our basic single density grip to our more sophisticated double density line. Available in a range of popular color ways.

TripleD GRIPS

Triple density or TripleD Grips are manufactured with three densities of the highest quality materials to create the best performing, most durable grips available. Scott's use of a firm-density initial injection maintains the durability of the grip core and end cap. This compound also allows for dependable grip to bar adhesion. The medium-density second injection layer delivers maximum comfort and durability. The third soft-waffle injection layer delivers the comfortable final grip surface increasing vibration damping and reduces fatigue, thus minimizing arm pump. The combination of these three distinct layers ensures that Scott TripleD grips simply perform better and longer than the competition's.

FEATURES

- Firm-density tear-resistant end cap prolongs grip life
- Medium-density layer delivers maximum comfort and durability
- Soft-density layer reduces vibration, arm pump and fatigue
- Integrated safety wire channel

Doubled GRIPS

Double density or Doubled Grips combine two densities of the highest quality materials to create durable performance grips. The medium-density core ensures maximum comfort and durability. The soft-density body reduces arm pump and overall fatigue. Scott Doubled grips are classically designed to perform for motocross and off-road riding.

FEATURES

- Firm-density tear-resistant end cap prolongs grip life
- Medium-density layer delivers maximum comfort and durability
- Soft-density layer reduces vibration, arm pump and fatigue
- Integrated safety wire channel

Singled GRIPS

Single Density or SingleD Grips employ one density injection in a variety of patterns. SingleD grips are offered in soft or medium densities. The soft density compound reduces vibration, arm pump and fatigue. The medium density compound delivers the maximum durability without sacrificing comfort. SingleD grips are trusted motocross grips, which are proven performers in all mx and off-road riding conditions.

FEATURES

- Soft-density reduces vibration, arm pump and fatigue
- Medium-density delivers maximum durability without sacrificing comfort
- Integrated safety wire channel

SCOTT DIAMOND

Code: #230137 - 6 PAK

The Diamond Grip is a triple density grip that focuses on reducing arm fatigue without sacrificing control. The medium density waffle pattern delivers maximum comfort and durability while the soft density diamond pattern area reduces vibration, arm pump and fatigue, and the firm density for a more durable end cap. Included Neoprene grip donuts help reduce abrasion and thumb blisters.

FEATURES

- Triple density grip
- Full waffle design
- Integrated safety wire channel
- Grip donuts included

[Blue/White-1006]

[Grey/Black-1019]

[Green/Black-1089]

[Red/White-1005]

[Black/White-1007]

SCOTT DUECE

Code: #230128 - 6 PAK

The SCOTT grip is a half-waffle, dual compound grip designed to offer maximum grip and comfort. With a medium density raised waffle pattern and a soft density palm area, this grip fights vibration, arm pump and fatigue.

FEATURES

- Double density grip
- Half waffle pattern
- Soft density palm area
- Integrated safety wire channel
- Grip donuts included

[Grey/Blue-1100]

[Red/Grey-1010]

[Black/Green-1043]

SCOTT SXII KIT

Code: #230129 - 6 PAK

The SXII grip is a dual density grip with a soft density diamond pattern surrounding a firm density core and end cap. The raised diamond texture offers incredible grip while the soft compound helps reduce arm and hand fatigue. Included Neoprene grip donuts help reduce abrasion and thumb blisters. This grip is a top choice amongst many top racers and weekend warriors alike.

FEATURES

- Double density grip
- Full diamond design
- A firm density inner compound
- A soft density diamond pattern
- Integrated safety wire channel

SCOTT ATV (DD RACING) KIT

Code: #230139 – 6 PAK

The ATV (DD Racing) grip is specially designed for ATV thumb throttles. The Deuce ATV grip is a double compound half waffle grip designed to deliver maximum comfort and durability.

FEATURES

- Double density grip
- Half waffle pattern
- Soft density palm area
- Integrated safety wire channel
- Thumb throttle compatible

[Grey/Black-1019]

SCOTT HURRICANE

Code: #207725 – 12 PAK

The standard from which most grips are based, the Hurricane MX grip is a tried and true design that has been around for decades. Featuring a full waffle grip, the Hurricane MX grip offers a dependable feel many top racers have come to expect.

FEATURES

- Single density grip
- Traditional full waffle design
- Integrated safety wire channel
