## MATERIAL TECHNOLOGIES

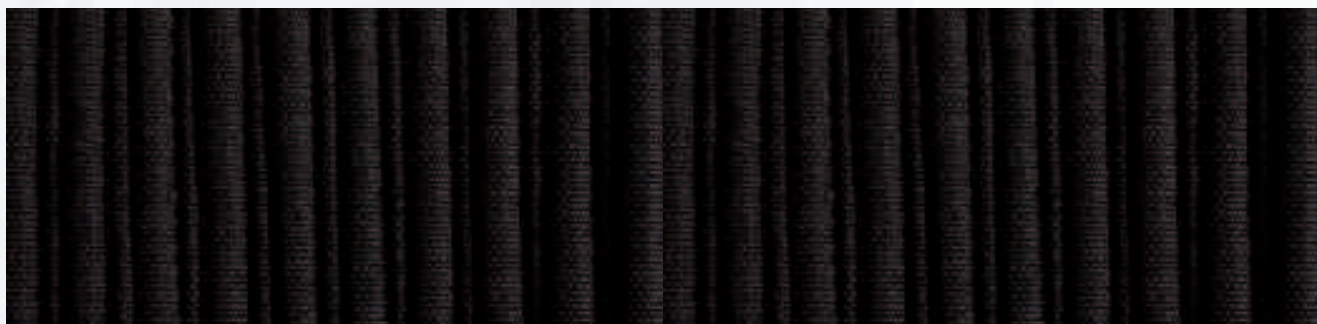

---

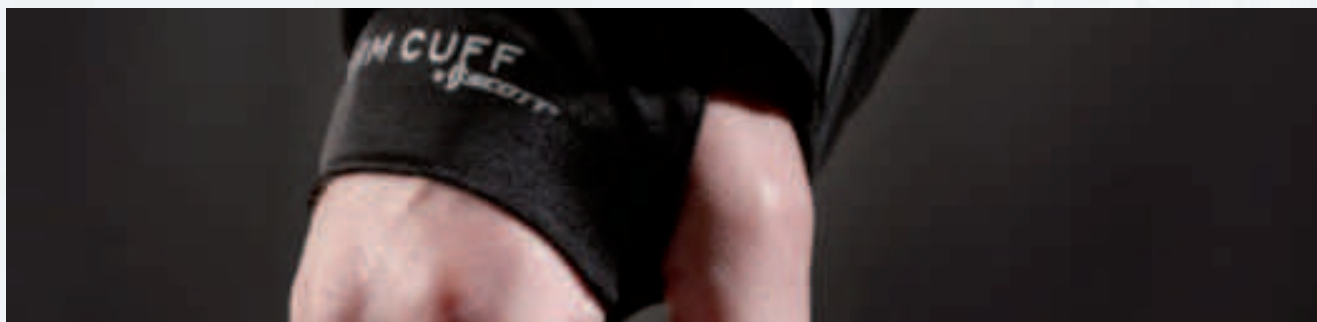

FIDLOCK® MAGNETIC SNAP SYSTEM.

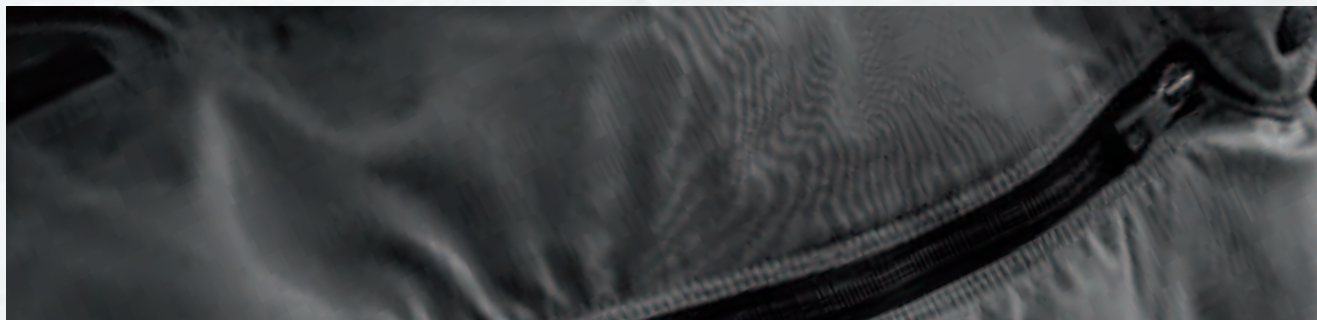

SUPERFABRIC® CERAMICAL DOTS. ENSURE HIGH RESISTANCE.

SPECIAL STRETCH.

COTT STORMCUFF. WATERPROOF.

YKK® CURVED ZIP. FOR ERGONOMIC FIT AND FUNCTION.

500D ONROAD OXFORD. POLYAMID FABRIC FOR MC USE.

750D ONROAD OXFORD. POLYAMID FABRIC IN HIGH DENSITY.

WAXED ONROAD HT FABRIC. EXTREME ROBUST SURFACE.

CORDURA® 500D. FIRST BRAND FOR DURABLE FABRICS.

DOBBY HITENA®. HIGH TWISTED FOR EXTREME USE.

# GORE-TEX® TECHNOLOGIES

## GUARANTEED TO KEEP YOU DRY™ PROMISE

For more than 30 years, GORE-TEX® products have been delivering comfort and protection so you can enjoy your outdoor activities with confidence.

The GORE-TEX® membrane is integrated in the garment between the outer material and the lining. It is a perfect barrier to rain and wind, while allowing perspiration to escape. Even in cases of extreme physical exertion, humidity will be transported to the outside of the clothing system and you always stay comfortable in your Scott garments engineered with GORE-TEX® products.

### 3-LAYER GORE-TEX® CONSTRUCTION

For extreme conditions and for best weather protection. Outshell, membrane and lining bonded to a functional layer.

### Z-LINER GORE-TEX® CONSTRUCTION

Light and soft solution for non-restrictive designs. Membrane inserted liner between outshell and lining.

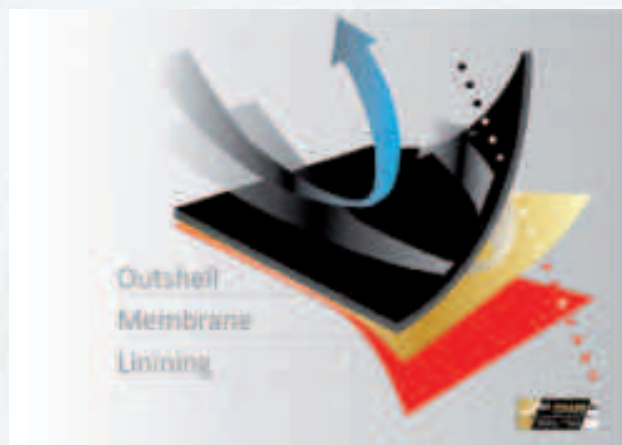

# TRIPHASE® TECHNOLOGIES

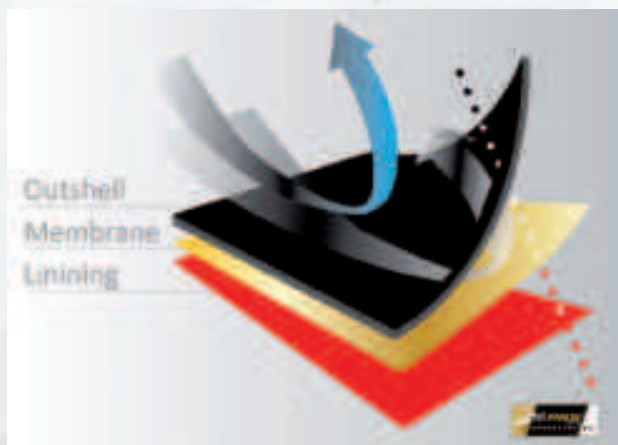

## A PROMISE FOR YOUR RIDE

triphase (TP) is a climate control technology based on a PU (polyurethane) membrane developed exclusively by Scott Sports. The construction offers a high level of breathability while also keeping the rider's body climate comfortable by managing outside elements that he or she might encounter. Windproof and waterproof features protect in all weather conditions while breathable aspects allow moisture and vapor to escape to maintain the highest level of comfort.

According to Scott requirements, the 3layer and Z-liner construction is tested under extreme conditions before being approved for use in Scott Motorsports products.

triPHASE 3L: Outshell, membrane and lining bonded into one functional layer. Professional function - fast drying.

triPHASE Z-LINER: membrane inserted liner between outshell and lining. Comfortable solution - reasonable price.

# NECK BRACE TECHNOLOGIES

Neck injuries can be of the most serious upper body injuries. The **SCOTT NECK BRACE** was engineered in collaboration with Leatt®, the market leader and pioneer of the “helmet for your neck”. It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident. **THE SCOTT NECK BRACE** is engineered with Leatt®’s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

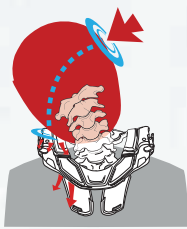

## ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY.

All Scott Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™. This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head\* and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all Scott neck Braces. In a typical face-plant type accident without a Scott Neck Brace, the force of the impact is transferred from the ground to the helmet, through the helmet to the skull and skull base where it is then transferred through the neck to the back (thoracic spine). With the Scott-Brace fitted, the force will instead transfer from the ground to the helmet, through the helmet onto the Scott Neck Brace once contact is made, some of the force will therefore be transferred to the brace and dispersed to the less vulnerable parts of the torso. If the impact is significant enough, the brace is designed to fail in crumple zones (similar to those seen in cars), thereby helping to absorb some of the energy of the impact.

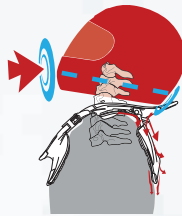

## THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

**HYPEREXTENSION:**  
over-bending of the head in rearward direction.

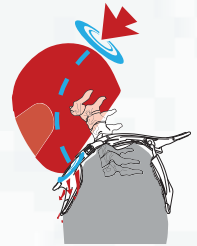

**LATERAL HYPERFLEXION:**  
over-bending of the head to one side.

**POSTERIOR HYPERTRANSLATION:**  
extreme movement of head and helmet, rearward on the neck.

**COUPLED AXIAL LOADING:**  
Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

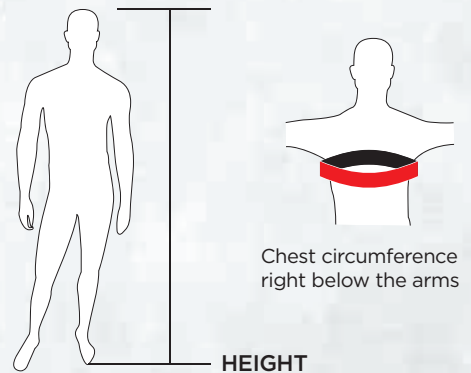

**HYPERFLEXION:**  
over-bending of the head in forward direction.

## PROTECTION TECHNOLOGIES

### HOW DOES D3O™ MATERIAL WORK?

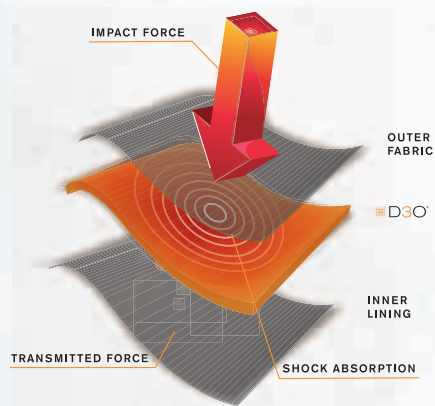

d3o™ is a patented material with intelligent molecules. It flows with you as you move but locks together on impact to absorb energy and protect you.

This unique innovative component provides an optimal freedom of movement and surpasses CE standards.

### INCREASED COMFORT AND MOBILITY.

d3o™ back protection is low profile, lightweight, flexible and soft. d3o™ protectors allow for complete freedom of movement and mold to your body so you will not even feel like you are wearing a back protector.

### SCOTT SPECIFIC DESIGN

SCOTT CR Back Protectors feature SCOTT's unique 3D mesh back that increases breathability. The adjustable belt helps you customize the fit.

## SAS-TEC® TECHNOLOGIES

**SAS-TEC**  
body protection systems

SAS-TEC experts have years of experience with shock absorbing systems. The systems have passed all of Scott's requirements and have significantly outperformed the benchmark for all joint and back protectors in the European Market, known as the CE Standards.

3D-Protector from visco elastic soft foam with outstanding shock absorption values: Residual force according to EN 1621-2 under 9KN (limit Level 2: 9KN). Anatomically perfectly adapted and barely noticeable. High-end engineering for greater performance.

# JACKETS

## JACKET SCOTT DISTINCT 1 GT

Code: #221246 (D-SIZE #224464)

Sizes Available: S-3XL, MEN SHORT (D-SIZE) M-4XL

### WEATHER REGULATION

- + High resistance Polyamid fabric and Cordura® ripstop reinforcements.
- + Breathable, wind- and waterproof 3-layer GORE-TEX® construction.

### MATERIAL

- + 70% Polyamid, 25% Polyester, 5% Polytetrafluorethylen, Lining: 100% Polyester.

### COMFORT

- + Collar with removable inner pillow for comfortable fitting.
- + Super light and comfortable GORE-TEX® fabrics.

### INSULATION

- + Additional inner front flap insulation.
- + Removable thermal lining with super soft 80gr. Dexfil® filling.
- + Special lightweight ripstop 260T tafetta.
- + Additional kidney insulation system.
- + Comfortable mesh lining.

### MATCHING PRODUCTS

- + Pants Distinct GT, Glove Distinct 1 GT.

### FEATURES

- + Waterproof storm cuff with thumb loop.
- + Waterproof Riri® zipper front closure system.
- + SAS-TEC® protectors, EN1621-1 approved. Pocket for optional back protector with size information.
- + Reflective elements for best visibility.
- + Cordura ripstop and Superfabric® reinforcements.
- + 2 waterproof inner pocket.
- + 3 water resistant outer pockets.
- + Long connection zipper.
- + Fidlock® magnetic closure system.
- + Climate control by our removable collar system with stack-effect.
- + Adjustments at collar, waist, hem, sleeve and cuff.

## JACKET SCOTT DISTINCT 2 GT

Code: #221247 (D-SIZE #224465)

Sizes Available: S-3XL, MEN SHORT (D-SIZE) M-4XL

### WEATHER REGULATION

- + Heavy duty 500 D Polyamid with ripstop reinforcements.
- + Breathable, wind- and waterproof Z-liner GORE-TEX® construction.

### MATERIAL

- + 95% Polyamid, 5% Polytetrafluorethylen.
- Lining: 100% Polyester.

### COMFORT

- + Comfortable soft and high collar system.
- + Ventilation system.

### INSULATION

- + Additional inner front flap insulation.
- + Removable thermal lining with super soft 80gr. Dexfil® filling.
- + Special lightweight ripstop 260T tafetta.
- + Additional kidney insulation system.
- + Comfortable mesh lining.
- + 3M™ Thinsulate™ C100 insulation.

### MATCHING PRODUCTS

- + Pants Distinct GT, Glove Distinct 2 GT.

### FEATURES

- + Waterproof storm cuff with thumb loop.
- + Waterproof black and white zipper front flap system.
- + SAS-TEC® protectors, EN1621-1 approved. Pocket for optional back protector with size information.
- + Reflective elements for best visibility.
- + 2 waterproof inner pocket.
- + 4 water resistant outer pockets.
- + Long connection zipper.
- + Climate control by our ergonomic soft collar system.
- + Adjustments at collar, waist, hem, sleeve and cuff.
- + Pleats at elbow for best motion.

## JACKET SCOTT DEFINIT TP

Code: #227466

Sizes Available: S-3XL

### WEATHER REGULATION

- + High density Polyamid directly bonded with the triPHASE membrane. Dobby fabric for reinforcements.
- + Breathable, wind- and waterproof 3-layer triPHASE 3L membrane.

### MATERIAL

- + 95% Polyamid, 5% Polyurethan, Lining: 100% Polyester.

### COMFORT

- + Easy-fix zip handle system at chest pocket.
- + Collar with removable inner pillow for comfortable fitting.

### INSULATION

- + Additional inner front flap insulation.
- + Removable thermal lining with super soft 80gr. Dexfil® filling.
- + Special lightweight ripstop 260T tafetta.
- + Additional kidney insulation system.
- + Comfortable mesh lining.

### MATCHING PRODUCTS

- + Pants Tourance TP, Glove Tribound TP.

### FEATURES

- + Waterproof labyrinth closure system.
- + Waterproof storm cuff with thumb loop.
- + SAS-TEC® protectors, EN1621-1 approved. Pocket for optional back protector with size information.
- + Reflective elements for best visibility.
- + 1 waterproof inner pocket.
- + 3 water resistant outer pockets.
- + Long connection zipper.
- + Adjustments at collar, waist, hem, sleeve and cuff.
- + Pleats at shoulder for best motion.

# LAYERING LINE OVERVIEW

## WOMEN

### SCOTT ALL-YEAR-ROUND

Represent functional pieces in Scott's technical outerwear intended for year round use. No matter what the season is, the pieces selected as All Year Round provide performance and versatility.

### ODOR RESISTANT

Look for this icon for fabrics that have anti-odor properties. Some fabrics are naturally odor-resistant, while other garments use Polygiene® or Chitosante treatment processes. These treatments are natural, environmentally-friendly agents that are used to treat fabrics, allowing garments to be microbial, bacterial and fungal resistant.

### POLARTEC® POWER DRY®

Polartec® Power Dry® fabrics are designed to keep your skin dry when you sweat. Thanks to superior wicking action, high breathability and a quick drying function these pieces always feel comfortable next to skin.

### POLARTEC® POWER STRETCH®

Polartec® Power Stretch® fabrics feature body-hugging 4-way stretch and are very breathable. It keeps you dry when you sweat and provides warmth without weight.

# ACCESSORIES
