SCOTT 350 PRO TROPHY HELMET 240553

Blending high end materials with leading edge design, the SCOTT 350 PRO helmets are engineered with lightweight Thermoplastic Shells, Conehead Technology™ and high-flow vent systems. The in-mold EPS liner decreases the overall weight of each helmet, making them perfect for competitive athletes. If you are looking for protection, style and design this is your helmet.

CONSTRUCTION: Lightweight Injected Thermoplastic Shell, Conehead Technology™
COMPOSITION: Polycarbonate
SIZE: XS-XXL

FEATURES
 + Removable, Washable, liner and cheek pads
 + Highly integrated intake and exhaust vents
 + Easy adjust visor

blue/orange - 1454

black/white - 1007

blue/pink - 2839

HELMET TECHNOLOGIE

CONEHEAD™ is a revolutionary method of molding EPS foam to increase the impact properties of helmets. The helmet is molded in two stages and features two parts in two different densities, with a unique conical interface. The use of two densities ensures the optimum impact properties can be achieved on the inside and outside surfaces of the helmet. The conical interface acts like a crumple zone around the head by absorbing and dissipating impact forces sideways, as well as radially, offering improved absorption over a standard construction EPS helmet.
