NO SHORTCUTS

## NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

# INNOVATION TECHNOLOGY DESIGN

SINCE 1958 SCOTT SPORTS HAS PUSHED THE LIMITS OF INNOVATION, TECHNOLOGY AND DESIGN. FROM THE FIRST ALUMINIUM SKI POLE, TO THE INTRODUCTION OF AERO BARS AND THE ORIGINAL PLASTIC MOTO CROSS BOOT, WE HAVE LED THE WAY IN THE SPORTS INDUSTRY. COMBINING ENDLESS DETERMINATION TO IMPROVE WITH THE METHODOICAL INTRICACY PUT INTO EACH PRODUCT, SCOTT PREPARES ATHLETES TO REACH THEIR HIGHEST POTENTIALS. THE 2015/16 COLLECTION EXEMPLIFIES THIS MENTALITY AND THE UNIFICATION OF OUR THREE CORE PHILOSOPHIES. WHEN YOU PUSH YOURSELF TO THE LIMIT SCOTT WILL STAND BY YOU AND HELP YOU SURPASS WHAT EVEN YOU BELIEVED WAS IMPOSSIBLE. LET OUR PASSION BECOME YOUR PASSION AND YOUR SUCCESSES BECOME OUR SUCCESSES.

# SCOTT LCG

ADAPT YOUR VISION

## STEP BY STEP LENS CHANGE

**1.** To start, hold the goggle on the outside of the frame and slide the SCOTT Lens Change slider all the way up to eject the lens.

**2.** Next, to disengage the lens, grasp the outer rim of the lens and release the two hooks from the slider dock.

**3.** Insert the single lens hook into the slot on the right hand side of the goggle. Then attach the opposite side of the lens to the 2 lens hooks located on the slider dock.

**4.** Without pinching the nose area, slide the lever of the SCOTT lens change slider system all the way down making sure it clicks into the locked position and the red dot is fully covered.

The LCG Snow Cross goggle is all about vision adaptability. With features like the interchangeable lens and the Fit Systems, riders can fully adapt their vision. Thanks to its portable low-profile molded lens case, it's easy and quick to adjust to whatever mother nature can throw at you.

# SCOTT FRAME TECHNOLOGIES

## FIT

### FIT SYSTEM

The patented SCOTT Fit System is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions, providing a customized face and nose fit.

## COMFORT

### BIG 3-LAYER MOLDED FACE FOAM

SCOTT's premium large face foam does not only feature two layers of foam and one layer of fleece for ultimate fit and comfort, but also has pre-shaped nose foam to avoid any pressure points in this critical area.

### BIG THREE-LAYER MOLDED FACE FOAM

The deluxe, large, three-layer face foam features two layers of foam and one layer of fleece delivering ultimate comfort and fit.

### BIG TWO-LAYER MOLDED FACE FOAM

This large, two-layer open celled face foam with fleece has excellent moisture absorbing and thermal properties, guaranteeing that you stay warm, dry, and comfortable all day.

### BIG SINGLE-LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

## FRAME VENTILATIONS

### ALL-AROUND VENTILATION

Frame Ventilation is optimized around the entire frame in order to channel air flow onto the lens, as opposed to the eyes. This technology blocks snow and water from entering the goggle.

### INTEGRATED RAM AIR VENTILATION

RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

### TYRANT RAM AIR PLUG

Exclusive to SCOTT, the adjustable and removable plug enables a full or partial seal of the RAM Air frame openings, allowing the rider to customize his or her ventilation settings.

## HELMET COMPATIBILITY

### SILICONE LINE

An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet or hat.

### INCORPORATING DESIGN

SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.

### FACEMASK

Designed for harsh weather conditions SCOTT snowmobile goggles include facemasks that provide additional protection from the wind and cold.

# SCOTT LENS TECHNOLOGIES

## LENS SHAPES

### SPHERICAL LENS

Spherical lenses are manufactured to mimic the shape of the human eye in order to provide superior vision in all directions. A greater chamber volume also helps to fight fogging.

### CYLINDRICAL LENS

Cylindrical lenses curve from left to right, and are flat from top to bottom. These are low profile, flexible, and offer a unique look.

## EXTERNAL COATINGS

### HARD COATING

SCOTT hard coating creates a permanent bond with the lens that reduces the appearance of hairline scratches and provides overall lens durability.

### CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

## FOG RESISTANCE

### ANTIFOG COATING

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

### SPACER FOAM AND DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability.

### AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle.

## OUTER LENS TECHNOLOGIES

### SCOTT OPTIVIEW

These European manufactured lenses are made of polycarbonate (material), ensuring comfort and high-impact resistance. SCOTT's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical.

### SCOTT TRUVIEW

These European manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures delivering high quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

# SCOTT LENS FAMILIES

ADAPT YOUR VISION

**LIGHT SENSITIVE** ONE VERSATILE LENS FOR ALL WEATHER CONDITIONS

CAT. 1-3  
VLT. 15-45%

CAT. 1-3  
BRONZE CHROME

**1** PHOTOCROMIC PIGMENTS  
ON THE INNER LENS

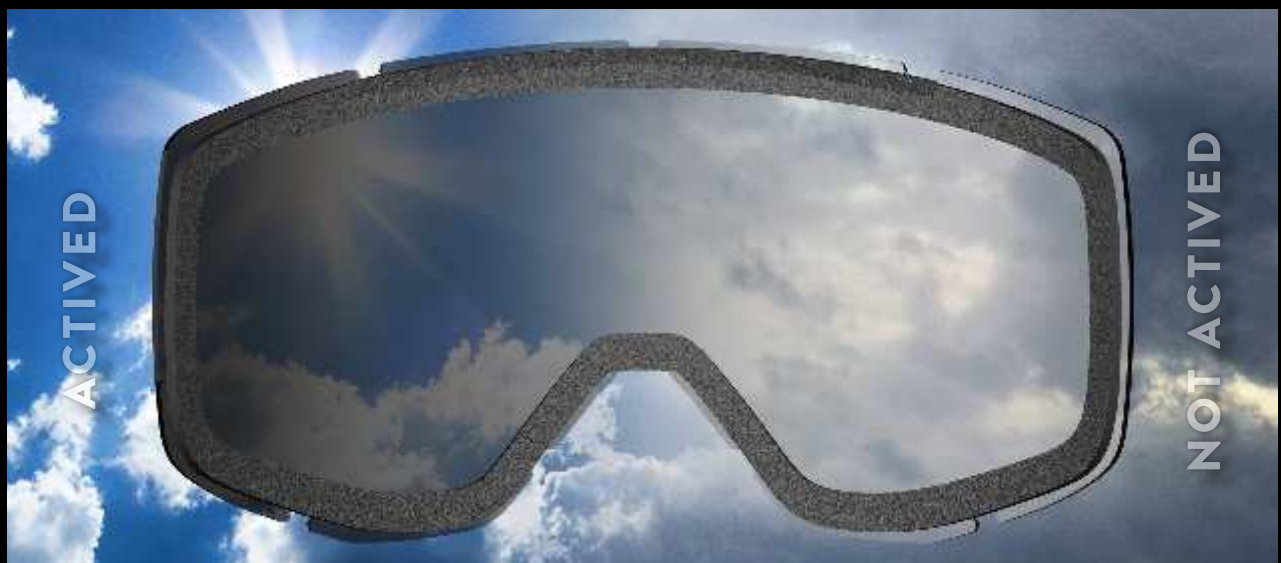

One problem that often comes up with the photochromic technology is that cold temperature can activate the lens pigments. As a result, the lens turns dark also during bad weather. To avoid this, SCOTT Light Sensitive's pigments are located on the inner lens, isolated from the cold environment and warmed up by the human heat. This makes the pigments only react to light intensity for a maximum performance!

**2** AMPLIFIER  
OUTER LENS

In case of bad weather, the pigments of the inner lens turn clear and the vision is only impacted by the outer lens tint. That's why the SCOTT Light Sensitive outer lens features the patented Amplifier tint to provide the best contrast in bad weather conditions.

**3** CHROME COATING

On top of all the great inner- and outer lens features, the lens is equipped with chrome coating. This reduces the dazzling effect in sunny conditions and offers the best look to the rider.

## CONEHEAD TECHNOLOGY

CONEHEAD™ is a revolutionary method of molding EPS foam to increase the impact properties of helmets. The helmet is molded in two stages and features two parts in two different densities, with a unique conical interface. The use of two densities ensures the optimum impact properties can be achieved on the inside and outside surfaces of the helmet. The conical interface acts like a crumple zone around the head by absorbing and dissipating impact forces sideways, as well as radially, offering improved absorption over a standard construction EPS helmet.

# APPAREL TECHNOLOGIES

## SHELL FABRICS

### GORE-TEX®

Garments engineered with GORE-TEX® technology are durable, water and windproof, and feature optimal breathability. They are built to maximize protection and comfort. GORE-TEX® products are created by laminating the GORE-TEX® membrane to high-performance textiles. In order to guarantee a waterproof product, the seams on the entire garment are sealed with GORE-SEAM® tape technology.

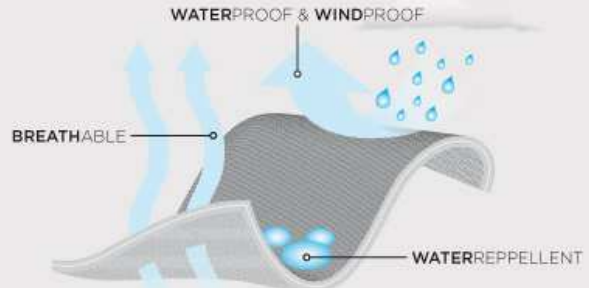

GORE-TEX® Performance Shell with Z-Liner

- Z-LINER
- 3 LAYERS

### DRYOSPHERE

#### DRYOsphere ILLUSTRATION

2 & 3 layer shell fabrics with a polyurethane layer bonded to the underside combined with DRYOzone DWR on the outermost surface provides a minimum capability of 10,000mm water pressure resistance & 10,000 g / m<sup>2</sup> / 24h moisture transport performance.

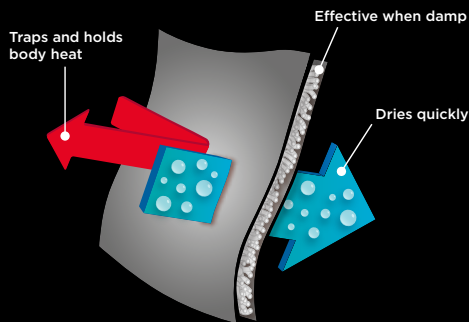

- Z-LINER
- 2 LAYERS
- 3 LAYERS

## INSULATIONS

### 3M THINSULATE™ INSULATION

Inch for inch, no insulation keeps you warmer than Thinsulate™, providing up to two times the warmth of other high-loft insulation materials and nearly 1.5 times the warmth of down.

3M™ Thinsulate™ Insulation  
The insulation that's thin, light, warm

3M™ Thinsulate™ Platinum Insulation Type J features a unique blend of synthetic hydrophobic fiber, which result in exceptional warmth and better water resistance. Its soft feel and availability in many different gram weights makes it versatile and comfortable for a wide variety of apparel and accessories

3M™ Thinsulate™ Platinum Insulation Type FX is a blend of unique electrometric fine olefin fibers and larger staple fibers. The product is designed for use in applications where stretch and recovery are important.

3M™ Thinsulate™ Platinum Insulation Type G is an economical, 100% polyester, mid-loft insulation. It may be quilted using conventional quilting equipment

## LAYERING

### POLARTEC® POWER DRY®

Fabrics designed to keep your skin dry when you sweat. Superior wicking action, high breathability and a quick drying function make these pieces always feel comfortable next to skin.

### POLARTEC® POWER STRETCH®

Featuring body-hugging 4-way stretch and excellent breathability, Polartec® Power Stretch® fabrics keep you warm and dry without added weight.

# GLOVES TECHNOLOGIES

## MCFIT

"mcfIT technology" is a glove assembling technology using special adhesive members in assembling each layer of a glove (lining, membrane insert and out-shell) avoiding sewing process completely. The technology can be applied to not only WWB glove, but also single layer glove without limitation to the materials and designs.

This innovative technology provides your hands "Maximum Comfort" through the benefits as: Tactility and Dexterity, One-layer Fitting and Superior Grip Durability, Additional Wind-proof of Heavy insulated gloves of Thimble shape adhesive members.

## WINDSTOPPER

With total windproof protection and excellent breathability, WINDSTOPPER® softshell combines the comfort of a soft midlayer with the water resistance of a shell.

# SCOTT PROTECTION

-

# SCOTT COMMANDER 2 JACKET PROTECTOR

—

THE SCOTT COMMANDER SETS NEW STANDARDS WITH INNOVATIVE, LIGHTWEIGHT AND IMPACT ABSORBING MATERIALS PLACED IN KEY AREAS WHICH OFFER AN ADJUSTABLE ERGONOMIC FIT AND UNPRECEDENTED COMFORT. THE COMMANDER BODY ARMOR FULFILLS ALL REQUIRED SAFETY STANDARDS AND A NEW REVOLUTIONARY NECK BRACE INTEGRATION CONCEPT.

The patented independent floating mid plate system on back allows a precise incorporation with neck brace and a real freedom of movement. No more complicated adjustments, no need to remove plates: just put your neck brace on and you are ready to ride.

## SPECIAL FEATURES:

TOTAL MOBILITY. COMFORTABLE FIT

SAFE CLOSURE

PERFECT LEATT® INTEGRATION

white

## SCOTT COMMANDER 2 JACKET PROTECTOR

246380

The Commander 2 Jacket Protector features an important adaptation to the revolutionary neck brace integration system. The upper back plate has been redesigned to optimize the integration of all neck braces. With additional modifications including the new anatomic foam under the back plates and the new side adjustment buckles, the Commander series continues to exemplify innovative, lightweight, and impact absorbing protection.

### CONSTRUCTION:

Articulated PE and ABS plastic plates  
Absorbing rubber foam layer

### SIZE:

S-2XL

### FEATURES:

- + Perfect Neck brace compatibility – Patented Commander Neck brace system
- + Extremely aerated and flexible Commander chest and front plastic coverage
- + Anti-moisture inner front and back panel in 3D mesh

- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure
- + Anatomic impact biceps foam
- + Removable ergonomic and bendable elbow and shoulder pads
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve
- + Arm pump free zone

black/green

## SCOTT COMMANDER 2 BODY ARMOR

246381

Like the jacket version the Commander 2 Body Armor features an important adaptation to the revolutionary neck brace integration system. The articulating plates on the back panel of this armor alleviate excessive pressure and discomfort when wearing a neck brace. It can be easily worn under or over the rider's jersey.

white

### CONSTRUCTION:

Articulated PE and ABS plastic plates  
Absorbing rubber foam layer

### SIZE:

S-2XL

### FEATURES:

- + Perfect Neck brace compatibility – Patented Commander Neck brace system
- + Extremely aerated and flexible Commander chest and front plastic coverage

- + Anti-moisture inner front and back panel in 3D mesh
- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure

black/green

## SCOTT SOFTCON JACKET PROTECTOR

232314

The SCOTT Softcon jacket exemplifies cutting edge personal safety technology and provides unmatched comfort. It is designed to be worn under the jersey and integrates seamlessly with most neck braces. The innovative soft SAS TEC™ foam is associated with a very tear and scratch resistant foil but is built with venting for improved breathability.

black

### CONSTRUCTION:

One-piece plate in SAS TEC™ on Back & Chest  
SAS TEC™ pads on elbow & shoulder  
3D and stretchable mesh fabrics

### SIZE:

M-XL

### FEATURES:

- + Perfect Neck brace compatibility
- + Removable elbow and shoulder pads
- + Anti-moisture inner panels in 3D mesh
- + Main body made of stretch mesh fabric
- + Arm pump free zone
- + Lock zipper
- + Seamless collar

## SCOTT SOFTCON VEST PROTECTOR

232315

The SCOTT Softcon Vest is designed to be worn under the jersey and integrates seamlessly with most neck braces. The Vest offers the same protective SAS TEC™ foam as the jacket and is perfect for those who want chest and back protection without the arm and elbow pads.

### CONSTRUCTION:

One-piece plate in SaS TEC™ on Back & Chest  
3D and stretchable mesh fabrics

**SIZE:** M-XL

### FEATURES:

- + Perfect Neck brace compatibility
- + Anti-moisture inner panels in 3D mesh
- + Main body made of stretch mesh fabric
- + Lock zipper
- + Seamless collar

black

## SCOTT PURSUIT 350 JACKET PROTECTOR

240552

The SCOTT 350 Pursuit Jacket offers SCOTT's highest level of protection. With a back-plate, as well as shoulder and lumbar adjustment, the Pursuit Jacket can be adjusted to perfection depending on the rider's preferences and the demands of the environment.

### CONSTRUCTION:

Impact plastic coverage  
Internal light honey comb structure  
Soft high absorbing foam layer

**SIZE:** M-XL

### FEATURES:

- + Exclusive vertebrae protective plates system with ventilated plastic back plates
- + Back protector plate
- + Adjustable elbow and forearm guard
- + Adjustable shoulder width
- + Lumbar adjustment and velcro closure belt
- + Neck brace compatible
- + Side zipper entry

black/green

## SCOTT SOFT CR II BACK PROTECTOR

237211

The SCOTT Soft CR II back protector features the innovative D3O® Viper plate. The plate is low profile which makes it compatible with most neck braces.

black/green

**CONSTRUCTION:**  
D3O® Viper protective plate  
Aerated 3D mesh  
**SIZE:** M-XL

**FEATURES:**  
+ Removable, soft, ventilated D3O® Viper back plate  
+ Breathable mesh back panel  
+ Adjustable shoulder straps and chest belt  
+ Double elastic hip belt

black/green

## SCOTT MX UNDERSHORTS PROTECTOR

225598

The SCOTT MX Undershorts was designed to be worn under MX pants to provide extra hip protection. A comfortable chamois was added to the seat area to provide more cushion. This undershort is perfect for those seeking a little more protection as well as more comfort in the saddle.

**CONSTRUCTION:**  
Impact plastic coverage  
Soft absorbing foam pads  
**SIZE:** S-XL

**FEATURES:**  
+ Removable plastic shell protection on legs  
+ Protective flap in EVA on the top of hips  
+ Chamois pad for increased comfort  
+ Breathable and comfortable mesh construction  
+ Multi-panel construction  
+ Removable hip SAS Tech protectors

## SCOTT COMMANDER ELBOW GUARDS

232322

The SCOTT Commander Elbow guards were designed to flex with the natural motion of the elbow and feature a vented mesh fabric on the sleeve for better breathability. The mesh also helps to reduce arm pump.

**CONSTRUCTION:**

Articulated PE plastic plates  
Absorbing rubber foam layer

**SIZE:** S-XL

**FEATURES:**

+ Ergonomic and articulated elbow protectors  
+ Removable adjustment strap  
+ Full fabric sleeve

black

## SCOTT MX KNEE GUARD

217775

These guards offer basic knee and shin protection. The knee guards feature an efficient 3-strap adjustment and are fully articulated for ease of movement.

**CONSTRUCTION:**

Impact plastic coverage  
Bio Foam

**SIZE:** one size

**FEATURES:**

+ Articulating Knee  
+ 3 comfort straps

black/green

## SCOTT 550 JUNIOR NECK BRACE

237808

black

**CONSTRUCTION:**

Fiberglass reinforced polyamide resin structure  
Injected foam padding

**SIZE:** one size

**FEATURES:**

- + Engineered snap-off thoracic strut
- + Full adjustability - sliding front and rear adjusters
- + Removable pads to adjust the height of the brace
- + Collar bone cut out section
- + Quick release closure

## SCOTT JUNIOR NECK ARMOR

237809

black

**CONSTRUCTION:**

Fiberglass reinforced polyamide resin structure of the brace  
Absorbing rubber foam layer - 3DF foam technology

**SIZE:** XS-S

**FEATURES:**

- + Neck protection based on the 550 neck brace model
- + Flexible neck structure
- + Removable shoulder protection
- + Large Velcro closure on chest sides
- + Vest built with soft, aerated and flexible impact foam
- + Inner mesh fabric panel
- + Quick release closure

## SCOTT COMMANDER 2 JUNIOR JACKET PROTECTOR

# SCOTT HARD PROTECTION

## COMMANDER PROTECTIVE SYSTEM

THE SCOTT COMMANDER SETS NEW STANDARDS WITH INNOVATIVE, LIGHTWEIGHT AND IMPACT ABSORBING MATERIALS PLACED IN KEY AREAS WHICH OFFER AN ADJUSTABLE ERGONOMIC FIT AND UNPRECEDENTED COMFORT. THE COMMANDER BODY ARMOR FULFILLS ALL REQUIRED SAFETY STANDARDS AND A NEW REVOLUTIONARY NECK BRACE INTEGRATION CONCEPT.

THE PATENTED INDEPENDENT FLOATING MID PLATE SYSTEM ON BACK ALLOWS A PRECISE INCORPORATION WITH NECK BRACE AND A REAL FREEDOM OF MOVEMENT. NO MORE COMPLICATED ADJUSTMENTS, NO NEED TO REMOVE PLATES: JUST PUT YOUR NECK BRACE ON AND YOU ARE READY TO RIDE.

### TOTAL MOBILITY. COMFORTABLE FIT

On the back: the slot connections of the plates are wider to allow a better movement and the foam has a special shape to ensure better flex. On the chest: The front is split in 5 panels to ensure more ranges of movement and wrap your chest.

### FULL MOISTURE MANAGEMENT

Air circulates through the holes and mesh fabric to effectively manage efficiently moisture in your back and chest.

### PERFECT LEATT® INTEGRATION

The back plates are split in 2 parts to emphasize the incorporation with the neck brace. The strut of the brace can follow your movement without making any pressure on the back plates.

### BEST RATIO PROTECTION/THICKNESS

The back protector is built with thin and advanced high density foam allowing reducing the thickness but still passing well all required tests.

### SAFE CLOSURE

The ratchet buckles allow to adjust your fit and to be safe packed into your protection..

## SCOTT VERTEBRAE PROTECTIVE SYSTEM

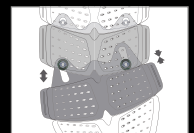

The SCOTT Vertebrae system was awarded several times for its innovative and unique construction. The plate system mimics the vertebrae, articulating in 3 axes to ensure free lateral extension and compression movements, resulting in complete freedom of movement and the highest level of protection.

### ARTICULATING HARD PROTECTION

The hard plastic plates are joined using an innovative rivet system allow the plates to move freely with the body, maximizing comfort and freedom of movement.

### HIGH PROTECTION

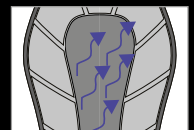

The Vertebrae system adheres to the highest-level safety standard meaning you get added comfort without sacrificing safety.

The 450 model is certifying according to Level 2 of the CE.

### FULL MOISTURE MANAGEMENT

Air circulates through the holes of the different layers to effectively manage efficiently moisture in your back.

# SCOTT SOFT PROTECTION

## SCOTT SOFTCON PROTECTIVE SYSTEM

THE REVOLUTIONARY SOFTCON JACKET IS THE MOST FLEXIBLE AND COMFORTABLE SOLUTION TO BE PROTECTED WITHOUT COMPROMISING PROTECTION. COMBINING INNOVATIVE MATERIALS - SAS TEC™ AND A UNIQUE DESIGN THE NEW SOFTCON DELIVERS UNPARALLELED FREEDOM OF MOVEMENT WHILE REMAINING PROTECTIVE BY PASSING TREE STANDARDS. ITS BACK AND FRONT ARE LOW PROFILED AND HAVE SPECIAL RECESS TO INCORPORATE AND FIT WITH NECK BRACES.

### PERFECT NECK BRACE COMPATIBILITY

The recessed shape on front and back allows putting easily the neck brace on the protector without removing any parts and wearing the neck brace on the jersey.

### FLEXIBLE SAS SAS TEC™ FOAM STRUCTURE

SCOTT Motosports collection uses a unique viscoelastic material called SAS TEC™ that enhance flexibility allowing the protection to conform to the body and ensure a tight and consistent seal.

### LOW PROFILE AND INVISIBLE LOOK

The protection is so thin that it is invisible under the jersey.

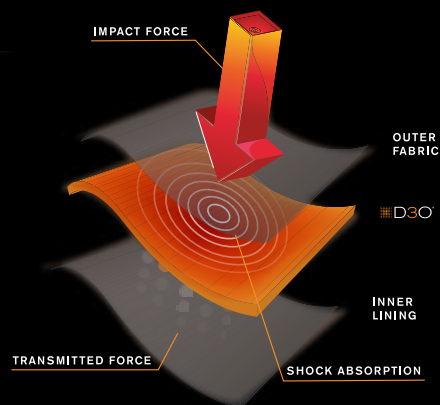

## D3O® TECHNOLOGY WITH SCOTT PROTECTIVE SYSTEM

### HOW DOES D3O® MATERIAL WORK?

D3O® is a patented material with intelligent molecules. It flows with you as you move but locks together on impact to absorb energy and protect you. This unique innovative component provides an optimal freedom of movement and surpasses CE standards.

### INCREASED COMFORT AND MOBILITY.

D3O® back protection is low profile, lightweight, flexible and soft. D3O® protectors allow for complete freedom of movement and mold to your body so you will not even feel like you are wearing a back protector.

# NECK BRACE TECHNOLOGIES

Neck injuries can be of the most serious upper body injuries. The SCOTT NECK BRACE was engineered in collaboration with Leatt®, the market leader and pioneer of the "helmet for your neck". It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident. The SCOTT NECK BRACE is engineered with Leatt®'s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

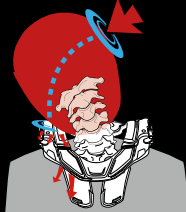

### ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY.

All SCOTT Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™. This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head\* and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all SCOTT neck Braces.

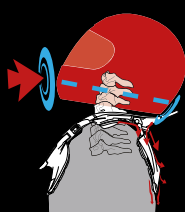

### THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

**HYPEREXTENSION:**  
over-bending of the head in rearward direction.

**LATERAL HYPERFLEXION:**  
over-bending of the head to one side.

**POSTERIOR HYPERTRANSLATION:**  
extreme movement of head and helmet, rearward on the neck.

**COUPLED AXIAL LOADING:**  
Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

**HYPERFLEXION:**  
over-bending of the head in forward direction
