

2018 SNOWMOBILE WORKBOOK

—
NO SHORTCUTS

NO SHORTCUTS

NO SHORTCUTS

Like the modest champion sitting in the corner listening as others spit their egos all over each other, SCOTT quietly lets its achievements, its victories, its skills speak for themselves. We don't make products for those who yearn to be noticed. We make them for those who are going to do what they do whether there's anyone watching or not.

If you're like us, you say what you say, do what you do, ride where you ride because you love it. You do it the right way. You do it for the right reasons.

INNOVATION TECHNOLOGY DESIGN

SINCE 1958 SCOTT SPORTS HAS PUSHED THE LIMITS OF INNOVATION, TECHNOLOGY AND DESIGN. FROM THE FIRST ALUMINIUM SKI POLE, TO THE INTRODUCTION OF AERO BARS AND THE ORIGINAL PLASTIC MOTO CROSS BOOT, WE HAVE LED THE WAY IN THE SPORTS INDUSTRY. COMBINING ENDLESS DETERMINATION TO IMPROVE WITH THE METHODICAL INTRICACY PUT INTO EACH PRODUCT, SCOTT PREPARES ATHLETES TO REACH THEIR HIGHEST POTENTIALS. THE 2018 COLLECTION EXEMPLIFIES THIS MENTALITY AND THE UNIFICATION OF OUR THREE CORE PHILOSOPHIES. WHEN YOU PUSH YOURSELF TO THE LIMIT SCOTT WILL STAND BY YOU AND HELP YOU SURPASS WHAT EVEN YOU BELIEVED WAS IMPOSSIBLE. LET OUR PASSION BECOME YOUR PASSION AND YOUR SUCCESSES BECOME OUR SUCCESSES.

ELEVATE YOUR SAFETY

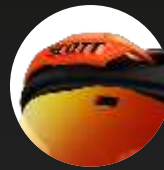

WE DEVELOP, TEST AND RE-TEST IN ORDER TO PERFECT OUR PRODUCTS OVER YEARS AND YEARS. OUR GOGGLES, BODY PROTECTION OR BAGS GIVE YOU THAT EXTRA BIT OF SAFETY IN THOSE CRUCIAL AREAS OF YOUR BODY WHEN IT COUNTS. REGARDLESS IF YOU ARE OUT IN DEEP SNOW, ON TRAILS OR ANYWHERE ELSE - „ELEVATE YOUR SAFETY“ WITH SCOTT - WE`VE GOT YOU COVERED.

WE GO BEYOND THE STANDARDS

SCOTT Sports has pushed the limits of innovation, technology and design and consequently is also pushing the limits of safety. Especially in sports like Snowmobile safety has very high priority. It is not only the human power but also the engine power beneath the rider that asks for this extra level of safety.

We at SCOTT are proud that our wide protection expertise, gained from our different sport involvements, allows us to push safety beyond standards. When you push yourself to the limit SCOTT will stand by you and help you surpass what even you believed was impossible.

We take the statement “Elevate your Safety” serious and don’t award every product. Items in this category provide you with safety above standards. Convince yourself by checking out the “Elevate your Safety” Snowmobile products.

SPECIAL FEATURES

MASSIVE FIELD OF VISION

We at SCOTT are proud to offer the largest field of vision on the market with the Prospect goggle. The larger lens combined with a thin frame construction brings the lens closer to your eyes maximizing the overall field of vision.

PROSPECT GOGGLE
black/yellow
amplifier yellow chrome

LENS LOCK SYSTEM

The Lens Lock System by SCOTT has been designed to guarantee the safest lens retention on the market. To avoid the lens coming out, SCOTT has designed this innovative lens lock system which features 4 locking pins that go through the lens instead of grabbing it from the top.

BIG 3 LAYER FACE FOAM

SCOTT's 3-Layer Face Foam incorporates two layers of foam and one layer of fleece. The first layer maximizes sweat retention and provides cushioning from the frame, the second layer ensures a precise comfortable face fit and the third layer acts as barrier between the goggle and rider's face.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape. Pressure created by the goggle on the rider's face provides a good seal.

amplifier teal chrome

SCOTT PROSPECT SNOW CROSS GOGGLE

262581

The Prospect Snow Cross is a new highlight among Snowmobile goggles and has never been on the market like this before. It gives the rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes it easy for the rider to change the lens. Its large silicone-lined strap together with articulated outriggers, highly contribute to the improvement of the helmet integration.

SPECIAL FEATURES

STEP BY STEP LENS CHANGE

1. To start, hold the goggle on the outside of the frame and slide the SCOTT Lens Change slider all the way up to eject the lens.

2. Next, to disengage the lens, grasp the outer rim of the lens and release the two hooks from the slider dock.

3. Insert the single lens hook into the slot on the right hand side of the goggle. Then attach the opposite side of the lens to the 2 lens hooks located on the slider dock.

4. Without pinching the nose area, slide the lever of the SCOTT lens change slider system all the way down making sure it clicks into the locked position and the red dot is fully covered.

SCOTT FRAME TECHNOLOGIES

FIT

FIT SYSTEM

The patented SCOTT Fit System is a mechanical adjustment located at the bottom of each side of the goggle allowing you to choose between four positions, providing a customized face and nose fit.

COMFORT

BIG 3-LAYER MOLDED FACE FOAM

SCOTT's premium large face foam does not only feature two layers of foam and one layer of fleece for ultimate fit and comfort, but also has pre-shaped nose foam to avoid any pressure points in this critical area.

BIG TWO-LAYER MOLDED FACE FOAM

This large, two-layer open celled face foam with fleece has excellent moisture absorbing and thermal properties, guaranteeing that you stay warm, dry, and comfortable all day.

BIG SINGLE-LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

LENS RETENTION

LENS LOCK SYSTEM

The innovative lens lock system features 4 locking pins that go through the lens instead of grabbing it from the top. Like this the lens stays in the frame no matter what.

FRAME VENTILATIONS

ALL-AROUND VENTILATION

Frame Ventilation is optimized around the entire frame in order to channel air flow onto the lens, as opposed to the eyes. This technology blocks snow and water from entering the goggle.

INTEGRATED RAM AIR VENTILATION

RAM is a patented frame ventilation system that directs airflow within the goggle by using a clean and controlled top-to-bottom pattern, eliminating "swirling air" and fogging.

HELMET COMPATIBILITY

SILICONE LINE

An adhered silicone strip on the inside of the goggle strap ensures the goggles stay right where they should on a helmet or hat.

INCORPORATING DESIGN

SCOTT goggles are engineered to engage flawlessly with a variety of helmets, including SCOTT's entire helmet line.

FACEMASK

Designed for harsh weather conditions SCOTT snowmobile goggles include facemasks that provide additional protection from the wind and cold.

PIVOTING OUTRIGGERS

The Prospect has two pivoting outriggers that adapt to any helmet shape and size. The resulting pressure created by the goggle on the rider's face provides a complete and consistent seal.

SCOTT LENS TECHNOLOGIES

LENS SHAPES

1. SPHERICAL LENS

Spherical lenses are manufactured to mimic the shape of the human eye in order to provide superior vision in all directions. A greater chamber volume also helps to fight fogging.

1. CYLINDRICAL LENS

Cylindrical lenses curve from left to right, and are flat from top to bottom. These are low profile, flexible, and offer a unique look.

EXTERNAL COATINGS

2. HARD COATING

SCOTT hard coating creates a permanent bond with the lens that reduces the appearance of hairline scratches and provides overall lens durability.

3. CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

FOG RESISTANCE

4. ANTIFOG COATING

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

5. SPACER FOAM AND DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability.

6. AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle.

OUTER LENS TECHNOLOGIES

SCOTT OPTIVIEW

These European manufactured lenses are made of polycarbonate (material) ensuring comfort and high-impact resistance. SCOTT's proprietary injection molding process and hard coat treatment guarantees that every OptiView lens is optically correct and distortion free. SCOTT OptiView lenses are available as spherical or cylindrical.

SCOTT TRUVIEW

These European manufactured lenses are made of extruded and thermoformed sheets of selected celluloses (CA/CP/PC). TruView lenses pass SCOTT's strict testing procedures delivering high quality, performance lenses. SCOTT TruView lenses are available as cylindrical double or single lens.

SCOTT AMPLIFIER LENS TECHNOLOGY

CONTRAST **AMPLIFIED**

SCOTT sets the industry standard for contrast enhancing optics with its patented amplifier lens technology. The secret to amplifier technology is its ability to add contrast while increasing clarity and definition in flat light conditions. This will allow you to see what you've been missing all this time.

WHAT IS **CONTRAST** ?

Contrast is the relative difference in luminance or color that makes an object distinguishable. In visual perception of the real world, contrast is determined by the difference in the color and brightness of the object and other objects within the same field of view.

KEY ARGUMENTS

Improves and maximizes contrasts to see the tiniest details. Focused on the subject for 20 years, SCOTT is the pioneer and benchmark in contrast enhancing lenses

HOW DOES THE EYE PERCEIVE **CONTRAST** ?

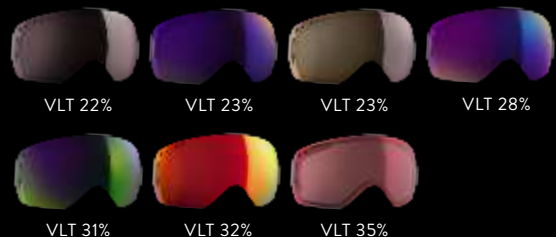

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the Amplifier lens, we can control how the external environment is perceived.

WHEN DO YOU NEED A **CONTRAST ENHANCING** LENS?

When virtually all the incoming light comes from overcast and snow, light appears to be coming equally from all objects and directions. Contrast is severely reduced, and the challenging condition known as flat light occurs. This is when you need to have a lens technology that increases the contrast.

CHOOSE **YOUR** STYLE

All our Amplifier lens options have the same contrast enhancing characteristics. In addition, our exclusive chrome coatings allow for unprecedented style and individuality.

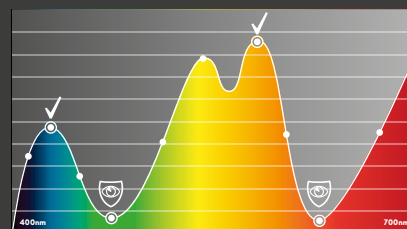

1. HOW DOES THE SCOTT **AMPLIFIER** LENS TECHNOLOGY **ENHANCE** CONTRAST?

The SCOTT Amplifier tint is designed to let through some specific colors to your eye while filtering some others, in order to create a high contrast within the landscape you are looking at.

2. WHICH WAVE LENGTHS ARE **AMPLIFIED** OR **FILTERED** FOR **ENHANCED** CONTRAST?

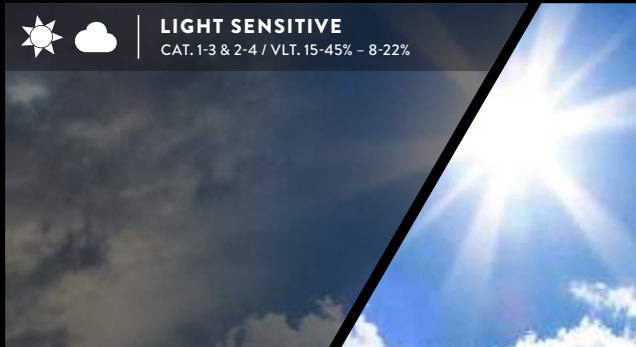

✓ **GOOD LIGHT:**
These colors get amplified

⊘ **BAD LIGHT:**
These colors are filtered out

In 2000, as a result of our extensive R&D, SCOTT has patented the Amplifier technology, which „amplifies“ the „good light“ that helps for contrast (blue and orange) while at the same time filtering out the kind of „bad light“ constituted by parts of green and red wave lengths.

SCOTT PRECISION OPTICS

SPO SCOTT
PRECISION OPTICS

ONE VERSATILE LENS FOR ALL WEATHER CONDITIONS

SCOTT Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker. SCOTT Light Sensitive's innovative lens construction guarantees no influence from cold temperatures on the photochromic efficiency.

CAT. 1-3

CREATES LIGHT WHEN THERE IS NONE

The SCOTT Illuminator has been developed to let almost 90% of yellow and orange wave lengths pass the lens and emphasize the brightness perception, while shutting out the bad light to maintain a very good level of contrast and depth of perception

CONEHEAD TECHNOLOGY

CONEHEAD™ is a revolutionary method of molding EPS foam to increase the impact properties of helmets. The helmet is molded in two stages and features two parts in two different densities, with a unique conical interface. The use of two densities ensures the optimum impact properties can be achieved on the inside and outside surfaces of the helmet. The conical interface acts like a crumple zone around the head by absorbing and dissipating impact forces sideways, as well as radially, offering improved absorption over a standard construction EPS helmet.

APPAREL TECHNOLOGIES

SHELL FABRICS

GORE-TEX®

Garments engineered with GORE-TEX® technology are durable, water and windproof, and feature optimal breathability. They are built to maximize protection and comfort. GORE-TEX® products are created by laminating the GORE-TEX® membrane to high-performance textiles. In order to guarantee a waterproof product, the seams on the entire garment are sealed with GORE-SEAM® tape technology.

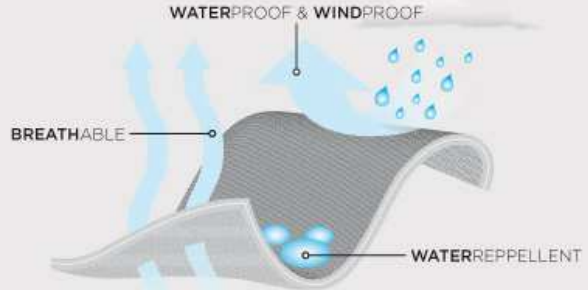

GORE-TEX® Performance Shell with Z-Liner

- Z-LINER
- 3 LAYERS

DRYOSPHERE

DRYOsphere ILLUSTRATION

2 & 3 layer shell fabrics with a polyurethane layer bonded to the underside combined with DRYOzone DWR on the outermost surface provides a minimum capability of 10,000mm water pressure resistance & 10,000 g / m² / 24h moisture transport performance.

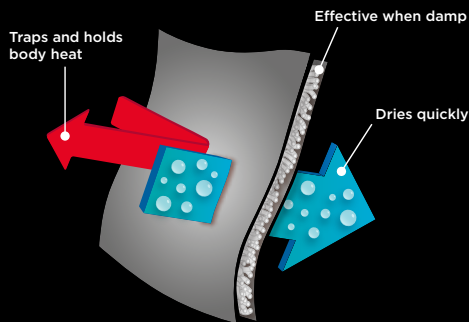

- Z-LINER
- 2 LAYERS
- 3 LAYERS

INSULATIONS

3M THINSULATE™ INSULATION

Inch for inch, no insulation keeps you warmer than Thinsulate™, providing up to two times the warmth of other high-loft insulation materials and nearly 1.5 times the warmth of down.

3M™ Thinsulate™ Insulation
The insulation that's thin, light, warm

3M™ Thinsulate™ Platinum Insulation Type J features a unique blend of synthetic hydrophobic fiber, which result in exceptional warmth and better water resistance. Its soft feel and availability in many different gram weights makes it versatile and comfortable for a wide variety of apparel and accessories

3M™ Thinsulate™ Platinum Insulation Type FX is a blend of unique electrometric fine olefin fibers and larger staple fibers. The product is designed for use in applications where stretch and recovery are important.

3M™ Thinsulate™ Platinum Insulation Type G is an economical, 100% polyester, mid-loft insulation. It may be quilted using conventional quilting equipment

LAYERING

POLARTEC® POWER DRY®

Fabrics designed to keep your skin dry when you sweat. Superior wicking action, high breathability and a quick drying function make these pieces always feel comfortable next to skin.

POLARTEC® POWER STRETCH®

Featuring body-hugging 4-way stretch and excellent breathability, Polartec® Power Stretch® fabrics keep you warm and dry without added weight.

APPAREL FEATURES

1. Effective ventilation
2. Insulated double wind flaps
3. Trusted YKK zippers
4. SCOTT developed D-Ring

5. Connection zipper
6. Strongly preshaped form
7. Ease use snowlockers
8. SCOTTsnowcuff and fleece cuff

SCOTT
PROTECTION

—

SCOTT COMMANDER 2 JACKET PROTECTOR

246380

The Commander 2 Jacket Protector features an important adaptation to the revolutionary neck brace integration system. The upper back plate has been redesigned to optimize the integration of all neck braces. With additional modifications including the new anatomic foam under the back plates and the new side adjustment buckles, the Commander series continues to exemplify innovative, lightweight, and impact absorbing protection.

CONSTRUCTION: Articulated PE and ABS plastic plates
Absorbing rubber foam layer

SIZE: S-XXL

FEATURES:

- + Perfect Neck brace compatibility – Patented Commander Neck brace system
- + Extremely aerated and flexible Commander chest and front plastic coverage
- + Anti-moisture inner front and back panel in 3D mesh

- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure
- + Anatomic impact biceps foam
- + Removable ergonomic and bendable elbow and shoulder pads
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve
- + Arm pump free zone

white

SCOTT COMMANDER 2 BODY ARMOR

246381

Like the jacket version the Commander 2 Body Armor features an important adaptation to the revolutionary neck brace integration system. The articulating plates on the back panel of this armor alleviate excessive pressure and discomfort when wearing a neck brace. It can be easily worn under or over the rider's jersey.

CONSTRUCTION: Articulated PE and ABS plastic plates
Absorbing rubber foam layer

SIZE: S-XXL

FEATURES:

- + Perfect Neck brace compatibility – Patented Commander Neck brace system

- + Extremely aerated and flexible Commander chest and front plastic coverage
- + Anti-moisture inner front and back panel in 3D mesh
- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure

white

SCOTT SOFTCON 2 JACKET PROTECTOR

263265

The SCOTT Jacket Protector Softcon 2 offers the latest in performance and technology. It exemplifies cutting edge personal safety technology and features specifically designed ergonomic and flexible D3O® pads and plates. It is compatible with a neck brace, the main body is made of stretch mesh fabrics and it contains anti-moisture inner panels in 3D panels. Like this it provides you with unmatched comfort.

CONSTRUCTION: Plates: 100% polyurethane

SIZE: S-XXL

FEATURES:

- + SCOTT specifically designed ergonomic and flexible D3O® pads and plates
- + Perfect Neck brace compatibility
- + Removable elbow and shoulder pads
- + Anatomic impact

black

SCOTT PURSUIT 350 JACKET PROTECTOR 240552

black/green

The SCOTT 350 Pursuit Jacket offers SCOTT's highest level of protection. With a back-plate, as well as shoulder and lumbar adjustment, the Pursuit Jacket can be adjusted to perfection depending on the rider's preferences and the demands of the environment.

CONSTRUCTION: Impact plastic coverage
Internal light honey comb structure
Soft high absorbing foam layer

SIZE: M-XL

FEATURES:

- + Exclusive vertebrae protective plates system with ventilated plastic back plates
- + Back protector plate
- + Adjustable elbow and forearm guard
- + Adjustable shoulder width
- + Lumbar adjustment and velcro closure belt
- + Neck brace compatible
- + Side zipper entry

SCOTT SOFT CR II BACK PROTECTOR 237211

black/green

The SCOTT Soft CR II back protector features the innovative D3O® Viper plate. The plate is low profile which makes it compatible with most neck braces.

CONSTRUCTION: D3O® Viper protective plate
Aerated 3D mesh

SIZE: M-XXL

FEATURES:

- + Removable, soft, ventilated D3O® Viper back plate
- + Breathable mesh back panel
- + Adjustable shoulder straps and chest belt
- + Double elastic hip belt

SCOTT MX UNDERSHORTS PROTECTOR 225598

black/green

The SCOTT MX Undershorts was designed to be worn under MX pants to provide extra hip protection. A comfortable chamois was added to the seat area to provide more cushion. This undershort is perfect for those seeking a little more protection as well as more comfort in the saddle.

CONSTRUCTION: Impact plastic coverage
Soft absorbing foam pads

SIZE: S-XL

FEATURES:

- + Removable plastic shell protection on legs
- + Protective flap in EVA on the top of hips
- + Chamois pad for increased comfort
- + Breathable and comfortable mesh construction
- + Multi-panel construction
- + Removable hip SAS Tech protectors

SCOTT TRIGGER KNEE GUARD

246382

The Trigger Knee guard is designed to be used by both professional and amateur riders. Matching high safety standard with mobility, this ergonomic knee guard is a top choice for all riding levels.

CONSTRUCTION: Articulated PE plastic plates
Absorbing rubber foam layer
Adjustable elastic strap with fastener

SIZE: one size

FEATURES:

- + Ergonomic and articulated knee protector
- + Asymmetrical and lightweight
- + Large protective coverage on front and sides
- + Comfort neoprene sleeve on upper elastic strap
- + Bottom adjustable strap system wrapping calf muscle
- + Elastic strap with hook and loop adjustment
- + Removable ergonomic comfort padding
- + Localized impact absorption foam

black

SCOTT SOFTCON 2 KNEE GUARD

263267

The SCOTT Knee Guard Softcon 2 is a new invention that matches high safety standards with mobility. It provides specifically designed ergonomic and flexible D3O® pads, side padding and extended shin pad support. This knee guard also features efficient ergonomic positioned straps and an abrasion resistant front panel.

CONSTRUCTION: 70% polyamide, 20% polyester, 10% elastane

SIZE: S-L

FEATURES:

- + SCOTT specifically designed ergonomic and flexible D3O® pad
- + Localized side padding
- + Extended shin pad support
- + Abrasion resistant front panel with reinforcement printing
- + Perforated neoprene construction with stretch mesh back panel
- + Ergonomic positioned straps

black

SCOTT COMMANDER ELBOW GUARDS

232322

The SCOTT Commander Elbow guards were designed to flex with the natural motion of the elbow and feature a vented mesh fabric on the sleeve for better breathability. The mesh also helps to reduce arm pump.

CONSTRUCTION: Articulated PE plastic plates
Absorbing rubber foam layer

SIZE: S/M, L/XL

FEATURES:

- + Ergonomic and articulated elbow protectors
- + Removable adjustment strap
- + Full fabric sleeve

black

black/green

New in this collection, the Knee Guard Pursuit provides great safety to its rider. It is equipped with a flex multi plate panel, a localized impact absorption foam and ergonomic positioned adjustment straps.

CONSTRUCTION: Plates : 100% polyethylene
Padding : 100% Ethylene-vinyl acetate

SIZE: one size

FEATURES:

- + Flex multi plate panel
- + Asymmetrical design
- + Localized impact absorption foam
- + Ergonomic positioned adjustment straps

▼ JUNIOR

SCOTT COMMANDER 2 JUNIOR JACKET PROTECTOR

246383

black/green

Similar to the adult version the Commander 2 Junior Protector Jacket has been redesigned to easily integrate neck braces. Scaled down for smaller torsos it still features the same great impact absorbing and lightness as the full size jacket.

CONSTRUCTION: Articulated PE and ABS plastic plates
Absorbing rubber foam layer

SIZE: XS-S

FEATURES:

- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure
- + Anatomic impact biceps foam
- + Removable ergonomic and bendable elbow and shoulder pads
- + Double tightening band on forearm to avoid arm pump
- + Vented mesh main fabric on sleeve
- + Arm pump free zone
- + Perfect Neck brace compatibility - Patented Commander Neck brace system
- + Extremely aerated and flexible Commander's chest and front plastic coverage
- + Anti-moisture inner front and back panel in 3D mesh

SCOTT COMMANDER 2 JUNIOR BODY ARMOR

246384

white

With the same great features as the adult version the Commander 2 Body Armor can be easily integrated with all neck braces. It can also be worn over or under a jersey. A great choice for young riders looking for chest and back protection.

CONSTRUCTION: Articulated PE and ABS plastic plates
Absorbing rubber foam layer

SIZE: XS-S

FEATURES:

- + Perfect Neck brace compatibility - Patented Commander Neck brace system
- + Extremely aerated and flexible Commander's chest and front plastic coverage
- + Anti-moisture inner front and back panel in 3D mesh
- + Flex multi front plate panel
- + Shoulder length Velcro adjustment
- + Front Ratchet buckle closure

black/green

SCOTT SOFT CR II JUNIOR BACK PROTECTOR

225600

The Junior SCOTT Soft CR II back protector features the innovative D3O® Viper plate surrounded by ventilated 3D mesh. The plate is low profile which makes it compatible with most neck braces. With multiple adjusting straps the Junior Soft CR II can be adjusted for a custom fit.

CONSTRUCTION: D3O® Viper protective plate
Aerated 3D mesh
SIZE: XS-S

FEATURES:
+ Removable, soft and ventilated D3O® back plate
+ Removable, adjustable shoulder straps
+ Adjustable sternum strap
+ Double elastic hipbelt

SCOTT HARD PROTECTION

COMMANDER PROTECTIVE SYSTEM

THE SCOTT COMMANDER SETS NEW STANDARDS WITH INNOVATIVE, LIGHTWEIGHT AND IMPACT ABSORBING MATERIALS PLACED IN KEY AREAS WHICH OFFER AN ADJUSTABLE ERGONOMIC FIT AND UNPRECEDENTED COMFORT. THE COMMANDER BODY ARMOR FULFILLS ALL REQUIRED SAFETY STANDARDS AND A NEW REVOLUTIONARY NECK BRACE INTEGRATION CONCEPT.

THE PATENTED INDEPENDENT FLOATING MID PLATE SYSTEM ON BACK ALLOWS A PRECISE INCORPORATION WITH NECK BRACE AND A REAL FREEDOM OF MOVEMENT. NO MORE COMPLICATED ADJUSTMENTS, NO NEED TO REMOVE PLATES: JUST PUT YOUR NECK BRACE ON AND YOU ARE READY TO RIDE.

TOTAL MOBILITY. COMFORTABLE FIT

On the back: the slot connections of the plates are wider to allow a better movement and the foam has a special shape to ensure better flex.
On the chest: The front is split in 5 panels to ensure more ranges of movement and wrap your chest.

FULL MOISTURE MANAGEMENT

Air circulates through the holes and mesh fabric to effectively manage efficiently moisture in your back and chest.

PERFECT LEATT® INTEGRATION

The back plates are split in 2 parts to emphasize the incorporation with the neck brace. The strut of the brace can follow your movement without making any pressure on the back plates.

BEST RATIO PROTECTION/THICKNESS

The back protector is built with thin and advanced high density foam allowing reducing the thickness but still passing well all required tests.

SAFE CLOSURE

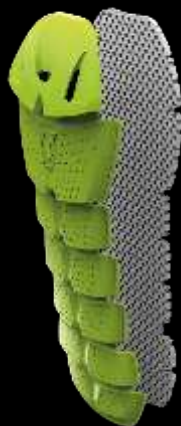

The ratchet buckles allow to adjust your fit and to be safe packed into your protection..

SCOTT VERTEBRAE PROTECTIVE SYSTEM

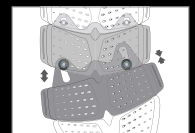

The SCOTT Vertebrae system was awarded several times for its innovative and unique construction. The plate system mimics the vertebrae, articulating in 3 axes to ensure free lateral extension and compression movements, resulting in complete freedom of movement and the highest level of protection.

ARTICULATING HARD PROTECTION

The hard plastic plates are joined using an innovative rivet system allow the plates to move freely with the body, maximizing comfort and freedom of movement.

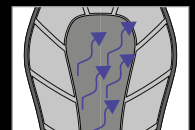

HIGH PROTECTION

The Vertebrae system adheres to the highest-level safety standard meaning you get added comfort without sacrificing safety. The 450 model is certifying according to Level 2 of the CE.

FULL MOISTURE MANAGEMENT

Air circulates through the holes of the different layers to effectively manage efficiently moisture in your back.

SCOTT SOFT PROTECTION

SCOTT SOFTCON PROTECTIVE SYSTEM

THE REVOLUTIONARY SOFTCON 2 JACKET IS THE MOST FLEXIBLE AND COMFORTABLE SOLUTION TO BE PROTECTED WITHOUT COMPROMISING PROTECTION. COMBINING INNOVATIVE D3O MATERIALS AND A UNIQUE DESIGN THE NEW SOFTCON 2 DELIVERS UNPARALLELED FREEDOM OF MOVEMENT WHILE REMAINING HIGHLY PROTECTIVE. ITS BACK AND FRONT ARE LOW PROFILED AND THE SPECIAL DESIGN WITH CHANNELS MAKE THEM EXTREMELY BREATHABLE AND FLEXIBLE.

PERFECT NECK BRACE COMPATIBILITY

The recessed shape on front and back allows putting easily the neck brace on the protector without removing any parts and wearing the neck brace on the jersey.

FLEXIBLE AND BREATHABLE D3O FOAM STRUCTURE

THE new Softcon 2 uses D3O material with a unique design that enhances flexibility allowing the protection to conform to the body and ensure a tight and consistent seal. The unique design combined with the perforation is creating a ventilation

LOW PROFILE AND INVISIBLE LOOK

The protection is so thin that it is invisible under the jersey.

D3O® TECHNOLOGY WITH SCOTT PROTECTIVE SYSTEM

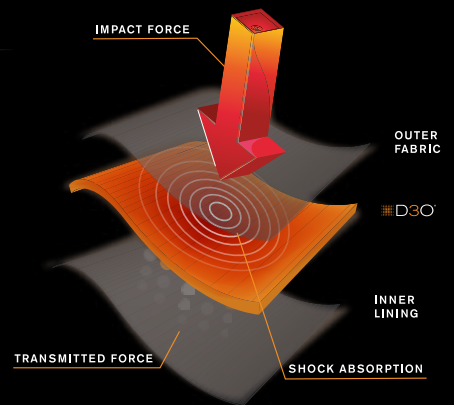

HOW DOES D3O® MATERIAL WORK?

D3O® is a patented material with intelligent molecules. It flows with you as you move but locks together on impact to absorb energy and protect you. This unique innovative component provides an optimal freedom of movement and surpasses CE standards.

INCREASED COMFORT AND MOBILITY.

D3O® back protection is low profile, lightweight, flexible and soft.

D3O® protectors allow for complete freedom of movement and mold to your body so you will not even feel like you are wearing a back protector.

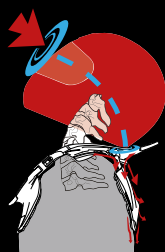

NECK BRACE TECHNOLOGIES

Neck injuries can be of the most serious upper body injuries. The SCOTT NECK BRACE was engineered in collaboration with Leatt®, the market leader and pioneer of the “helmet for your neck”. It functions in conjunction with your helmet and is designed to help protect your neck from extreme movements and overall neck loading in the event of an accident. The SCOTT NECK BRACE is engineered with Leatt®’s proven Alternative Load Path Technology™ (ALPT™) and features seamless integration of function, movement and looks.

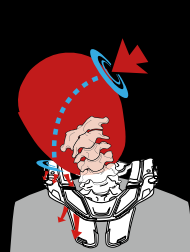

ALPT: ALTERNATIVE LOAD PATH TECHNOLOGY.

All SCOTT Braces help protect riders from 5 types of head/neck impacts by employing Alternative Load Path Technology™. This innovation helps disperse the energy, typically transferred to the neck, resulting from an impact to the head* and assists in the transferring of forces away from the vulnerable neck structures to less vulnerable areas of the body and is pivotal in the design of all SCOTT neck Braces.

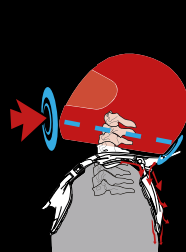

THE SCOTT NECK BRACE HELPS PROTECT AGAINST THE FOLLOWING MAIN SCENARIOS:

HYPEREXTENSION:
over-bending of the head in rearward direction.

LATERAL HYPERFLEXION:
over-bending of the head to one side.

POSTERIOR HYPERTRANSLATION:
extreme movement of head and helmet, rearward on the neck.

COUPLED AXIAL LOADING:
Helps prevent axial loading only when the axial forces act in combination with other mechanisms.

HYPERFLEXION:
over-bending of the head in forward direction
