

SCOTT
GOGGLES

SCOTT PROSPECT

SCOTT GOGGLES HAVE ALWAYS BEEN A QUALITY PRODUCT ON THE MARKET. BOASTING THE THICKEST LENS IN THE INDUSTRY, A MASSIVE FIELD OF VISION AND SCOTT'S PROPRIETARY LENS LOCK SYSTEM, THE PROSPECT MX GOGGLE DELIVERS ON ALL FRONTS. LEAVE NOTHING ON THE TABLE, YOUR TIME IS NOW. ALLOW THE SCOTT PROSPECT TO DEFEND YOUR VISION DURING YOUR UNWAVERING PURSUIT OF VICTORY.

NOSEGUARD

CLEAR AFC LENS

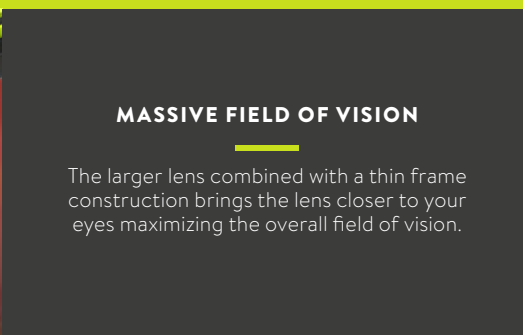

GOGGLE BAG

LENS LOCK SYSTEM

This system guarantees the safest lens retention on the market. Instead of feeding the lens in the groove and securing it with tabs, there are two locking pins at the top and two at the bottom that have to be pulled out before the lens can be changed.

MASSIVE FIELD OF VISION

The larger lens combined with a thin frame construction brings the lens closer to your eyes maximizing the overall field of vision.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape. Pressure created by the goggle on the rider's face provides a good seal.

PROSPECT

PAULS JONASS

“The Prospect is awesome and I am not only saying this because I am paid. I have a ton of confidence in this product – the lens lock system provides the ultimate in lens retention and the big field of vision is unbeatable.”

ADAM CIANCIARULO

“The Prospect is truly a game-changer in motorsport goggles. The Lens Lock System has been designed to guarantee the safest lens retention on the market. It gives me confidence in all racing conditions.”

JUSTIN BARCIA

“SCOTT is a racing brand, and the Prospect goggle has been designed for functionality. I am really stoked on the modern look of the goggle and the huge field of vision it provides me.”

LARGE DUAL SILICONE LINED STRAP

The Prospect comes with a 50mm strap backed with two lines of silicone in order to provide the best goggle stability on the helmet, regardless of how rowdy your ride gets.

WFS50 COMPATIBLE

The Prospect is the only MX goggle compatible with SCOTT's revolutionary WFS50. The low nose design allows installation of the 50mm film and pivoting outriggers enable slick integration of the canisters. These are easily installed without any tools.

3 LAYER FACE FOAM

SCOTT's 3-Layer Face Foam incorporates two layers of foam and one layer of fleece. The 1 layer maximizes sweat retention and provides cushioning, the 2 layer ensures a precise comfortable face fit and the 3 layer acts as barrier between the goggle and rider's face.

The SCOTT Prospect is an absolute highlight among MX goggles. It gives the rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes the lens stay in the frame no matter what impact is coming from outside. To avoid slipping of the goggle, it is equipped with an extra wide, no-slip silicone strap. This strap together with articulated outriggers, highly contributes to the improvement of the helmet integration.

SCOTT WORKS FILM SYSTEM 50

TWELVE YEARS AGO SCOTT RAISED THE BAR IN ROLL OFF TECHNOLOGIES WITH THE INTRODUCTION OF ITS OWN SYSTEM AND HAS SINCE PROVIDED A RELIABLE PRODUCT FOR THE MOST DEMANDING OF WEATHER CONDITIONS. TWO YEARS AGO THE SYNTHESIS OF PRECISION ENGINEERING RESULTED IN THE BEST WORKS FILM SYSTEM, SCOTT HAS EVER PRODUCED: THE WFS50. THE VIEW IS WIDE OPEN; THE COMFORT BEYOND STANDARD AND THE PERFORMANCE LEAVES OTHER GOGGLES SCRAMBLING FOR SECOND PLACE.

1. ANTISTICK GRID AND TRANSP. MUDFLAP

A larger film requires a redesigned and optimized antistick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens. Moreover, the mudflap is made out of a transparent material to offer a larger field of vision in dusty or less extreme conditions.

2. INTEGRATED CANISTER DESIGN

The canisters being positioned behind the pivoting outriggers results in an increase in field of vision. The canister integration results in a more fluid look, achieving necessary style points.

3. LARGE 50MM FILM

With SCOTT's WFS 50, the height of the film has been increased by 56% to become the largest on the market with no less than 50 millimeters. Combined with a thin frame construction, the WFS 50 offers up to 50 clear views of massive field of vision, even in the most challenging of racing conditions.

CLICK-ON CANISTERS

A new feature of the WFS 50 is SCOTT's Click-On attachment system. No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached to the pins. This system is the ultimate in WORKS technology: switching from roll offs to tear offs has never been this easy.

The SCOTT Prospect WFS possesses the same great features than the Prospect goggle. It is equipped with a WFS roll-off system for a large field of vision even in the muddiest conditions. The canisters can be clipped directly on the WORKS pins of the lens which makes their installation much easier and less time consuming. It takes almost no effort as there are no tools required. It also makes the switch from roll-off to tear-off simple and fast. The improved, transparent anti-stick grid offers a better field of vision, an easier installation in the canisters, a better sliding on the lens and a better sealing with the lens at the top.

FIT: Regular

SCOTT PROSPECT ENDURO

SPECIALLY DESIGNED AND DEVELOPED FOR THE NEEDS OF ENDURO RIDERS, THE PROSPECT ENDURO PROVIDES A MAXIMUM FIELD OF VISION, THE INNOVATIVE SCOTT LENS LOCK SYSTEM, PIVOTING OUTRIGGERS AND MORE. RIGHT OUT OF THE BOX THIS GOGGLE IS IMPRESSIVE AND ALTHOUGH WE DON'T LIKE TO ADMIT IT, LOOKS ARE IMPORTANT IN THIS SPORT - SO GRAB THESE GOGGLES AND GET READY TO RIDE.

ENDURO FRAME FEATURES

DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

ANTIFOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in antifog solution than any other SCOTT lenses. When riding Enduro races fog should never be an obstacle.

The SCOTT Prospect Enduro possesses the same great features than the Prospect goggle. It comes with a double lens and gives the enduro rider a maximum field of vision due to the extra height of the lens. In addition, it features an innovative SCOTT lens lock system that makes the lens stay in the frame no matter what impact is coming from outside. To avoid slipping of the goggle, it is equipped with an extra wide, no-slip silicone strap. This strap together with articulated outriggers, highly contribute to the improvement of the helmet integration.

SCOTT PROSPECT SANDDUST LS

AFTER TWO YEARS OF PROSPECT SUCCESS, SCOTT PROUDLY INTRODUCES THE PROSPECT SAND DUST GOGGLE WITH LIGHT SENSITIVE LENS IN THE 2019 COLLECTION. EQUIPPED WITH THE SAME GREAT FEATURES THAN THE STANDARD PROSPECT, THIS GOGGLE PROTECTS YOU FROM THE SMALLEST SAND GRAIN AND BRINGS YOU THROUGH THE TOUGHEST CONDITIONS OUT IN THE DESERT. PAIRED WITH A LIGHT SENSITIVE LENS WHICH ADAPTS TO SUNLIGHT INTENSITY, THIS IS YOUR MUST HAVE GOGGLE FOR THE NEXT SEASON!

SAND DUST FRAME FEATURES

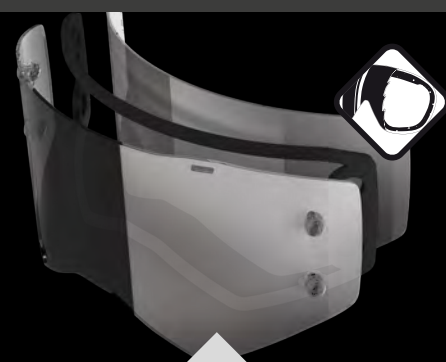

SMALL PARTICLE VENT FOAM MEMBRANE

To avoid any sand or dust sized particles to get into the frame, all SCOTT Sand Dust goggles are mounted with a closed cell membrane instead of the traditional open cell vent foam. This technology guarantees perfect isolation from the elements.

LIGHT SENSITIVE LENS CAT. 1-2

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker.

DOUBLE LENSES

Spacer Foam and Double Lenses block moisture and eliminate fogging, while allowing for optimal breathability

For the SCOTT Prospect Sand Dust LS the already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles. This assurance combined with a big field of vision, the innovative SCOTT lens lock system, articulated outriggers and a light sensitive lens which adapts automatically to sunlight you are prepared for your ride ahead.

SCOTT WORKS LENSES

WORKS LENSES FEATURE SCOTT'S HISTORIC TECHNOLOGY THAT ENABLES THE RIDER TO USE THE SAME LENS FOR BOTH TEAR OFFS AND ROLL OFFS. THE DO IT ALL LENS. THANKS TO THE FACTORY INSTALLED WORKS PINS, SCOTT ROLL OFF SYSTEMS OR TEAR OFFS CAN BE EASILY AND QUICKLY MOUNTED AND REMOVED DEPENDING ON THE RACE PROFILE AND WEATHER CONDITIONS.

2-PIN WORKS LENSES

Our historic SCOTT WORKS asymmetrical tearoff pin system features one stationary pin and one adjustable pin. The adjustable pin allows for micro tuning the tearoff tension and for perfecting the fit according to rider preference. Both pins can easily be removed to fit the Works Film system.

4-PIN WORKS LENSES

For the larger lens on the new SCOTT Prospect goggles the 4 pins provide more stability for the tear offs. With this system the tear offs will always remain tight to the lens and provide the rider a better vision.

SCOTT PRECISION OPTICS

SCOTT Precision Optics is a quality label which stands for premium materials and innovative manufacturing techniques. This unique combination enables us to offer distortion free, UV protected, high performance lenses of the best quality.

100% UV PROTECTION

All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

IMPACT RESISTANCE

In order to ensure that riders are safe from the impact of pebbles and flying debris all SCOTT lenses not only meet, but exceed the required impact resistance standards required for MX lenses.

SAFETY AND RANGE OF APPLICATION

Our lenses correspond to optic class 1 in accordance with EN1938:2010. Every lens provides 100% protection against UVA/UVB rays up to 380 nm (our patented Amplifier lenses even provide protection up to 400 nm). Only original SCOTT lenses fulfil these requirements. The lenses do not provide protection against hard or sharp objects. These are not safety goggles. Depending on the type, our lenses have different light reduction or transmission values. This product is not a toy; it is a piece of sports equipment and was developed and intended for sports purposes. SCOTT Sports SA will not accept liability for any damage caused by improper use of the goggles.

SCOTT MOTO GOGGLES LENSES

	FILTER CLASS	VLt	REF

* Not suitable for driving at night or in twilight conditions.

** Lenses not suitable for road use.

STANDARDS

Only filterclass 0 lenses are suitable for use in conditions of darkness or poor visibility. You will find the filter class on the midtop of the lens. The purpose of the motorsport goggles is to protect you from wind, dust, humidity and harmful rays of the sun. Moreover, these goggles are not suitable for protection against artificial light. They are not intended for use as paintball- or safety goggles. This goggle is not suitable for snowmobile usage. SCOTT assumes no liability in this regard.

Protective goggles for all motorbike and moped activities with the exception of formal races and competitions.

Accessories, such as nose guard, tear-off films or work lenses can be obtained from specialist retailers.

NB: Only use original accessories, as only they will ensure an exact fit and safety.

Please keep this instruction brochure in a safe place.

FILTER CLASS	TRANSMISSION	DESCRIPTION
S0	80% - 100%	clear or lightly tinted
S1	43% - 80%	light filter
S2	18% - 43%	medium universal filter

When used properly, it is assured that:

- 1- No injuries will be caused by sharp edges or protruding elements on the goggles.
- 2- The eyes will be protected against harmful UV rays.
- 3- The motorsport goggles - presuming correct selection of size and correct fitting of the adjustable head strap - will protect against draughts (airflow), dust, gravel and humidity.
- 4- Sufficient air circulation is guaranteed through the foam-covered opening.
- 5- The lens is optically accurate.
- 6- The lenses meet impact-resistance standards and withstand a blow of 60m/s with a Ø6mm steel ball.
