SCOTT 350 EVO PLUS TEAM ECE HELMET 268019

Blending high end materials with leading edge design, the SCOTT 350 EVO Plus Team Helmet offers a higher level of protection thanks to the inclusion of the MIPS® Brain Protection System. It enables better protection of the head by reducing the impact of rotational forces through a crush. If you are looking for safety, style and design this is your helmet.

CONSTRUCTION: ABS shell

SIZE: XS-2XL

FEATURES

- + Optimized ventilation
- + Removable and washable liner & cheek pads highly integrated
- + Easy adjust visor

For radial impact we have introduced Conehead Technology to our helmets. It is a unique construction that has two different densities of EPS. This increases the impact absorption of the helmet.

To protect the brain from rotational violence we have introduced the revolutionary MIPS brain protection system. MIPS is a low friction layer inside the helmet which allows the head to rotate relative to the helmet in an angled impact. This substantially reduces rotational violence and the potential for damage to the brain.
