

G O G G L E S

PROSPECT

THE ULTIMATE GOGGLE TO OPTIMIZE CONTRAST AND CLARITY.

AMPLIFIER

The SCOTT Prospect Amplifier Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before.

AMPLIFIER TECHNOLOGY

The injected Amplifier lens increases clarity and contrast to offer riders superior vision over a standard lens.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect Amplifier Goggle not only defends, but also enhances your vision when riding. These lenses are injection molded to provide improved definition and optical clarity, allowing you to see contours and transitions in the dirt like never before. With other perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT Amplifier Prospect Goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

PROSPECT

THE PINNACLE OF MOTO GOGGLE DESIGN AND INNOVATION

The Prospect is the ultimate moto goggle. Designed from the ground up with performance in mind, this top-of-the-range goggle offers uncompromised vision, maximum protection and ultimate style.

MASSIVE FIELD OF VISION

SCOTT offers the largest field of vision on the market. The larger lens and the thin frame construction bring the lens closer to your eyes maximizing your vision to the fullest.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

PIVOTING OUTRIGGERS

The two pivoting outriggers adapt to any helmet shape, providing a good seal on the rider's face.

The SCOTT Prospect is our flagship off-road motocross goggle. Used by an ever-growing list of champions, the Prospect goggle has everything you need to ensure your vision is the best it can be on the track or trail. With perfected features such as the NoSweat face foam, a maximum field of vision, the innovative SCOTT Lens Lock System, articulating outriggers and much more, the super-stylish SCOTT Prospect goggle has been engineered to Defend Your Vision no matter how extreme the conditions get.

The SCOTT Prospect Light Sensitive Goggle is an absolute highlight among off-road and motocross goggles. It gives the rider a maximum field of vision and features an innovative SCOTT Lens Lock System that makes the lens stay in the frame no matter what impact is coming from outside. Like the regular Prospect, this model comes with NoSweat face foam. What makes this goggle so special is the Light Sensitive lens, which adapts automatically to sunlight intensity. With this lens you are equipped for any and all light conditions!

► HERITAGE EDITION | PROSPECT GOGGLE

DEFEND YOUR VISION

SINCE 1970

—

PROSPECT

The new Heritage Edition Prospect goggles from SCOTT take it all the way back to the very start of SCOTT's dominance in the world of motocross and off-road racing. The classic '70s inspired design represents the true DNA of SCOTT's racing heritage and gives a nod to the fifty plus years we have been making goggles for old school legends, modern day champions and everyone in between.

PROSPECT

THE NO. 1 CHOICE FOR CHALLENGING CONDITIONS

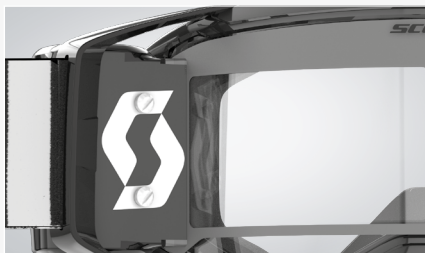

WFS

When it comes to racing on wet or muddy tracks, the Prospect WFS goggle is the only real choice. The race-proven, precision-engineered WFS50 system combined with the massive field of vision leaves all other goggles scrambling for second place.

CLICK-ON CANISTER

No need for tools, no need to waste time; simply click the canisters onto the WORKS pins and ride. The red lever makes sure the canister is safely attached. This system is the ultimate in WORKS technology.

LARGE 50 MM FILM

The SCOTT WFS50 is the largest film on the market, measuring a massive 50 millimeters. Combined with a thin frame construction, it offers up to 50 clear views even in the most challenging conditions.

ANTI-STICK GRID AND TRANSPARENT MUDFLAP

A large film requires an optimized anti-stick grid with mudflap. A thin vertical line has been added in the middle of the grid to make sure the film never sticks to the lens.

The SCOTT Prospect WFS Goggle is the perfect solution for racing in wet and muddy conditions. It comes equipped with a WFS50 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection. The transparent anti-stick grid offers a superior field of vision, smooth sliding on the lens and a better sealing with the lens at the top.

FRAME TECHNOLOGIES

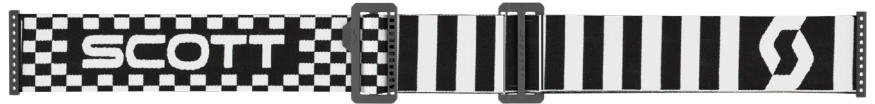

- 50mm WORKS Film System canisters
- SCOTT anti-stick grid with mudflap
- Lens Lock System
- Articulated outriggers
- NoSweat 3-layer molded face foam
- Extra-wide, no-slip silicone strap

PROSPECT

A PRO-LEVEL GOGGLE FOR RIDERS THAT DEMAND THE BEST

SUPER WFS

Previously only available to our pro team riders, the scott engineers have spared no expense in their quest to make the Prospect Super WFS the ultimate motocross racing goggle. With exclusive features and premium components, this goggle is as good as it gets.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

PERFORATED ANTI-STICK DOTS ON LENS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

WFS MUDFLAP WITH SEALING TAPE

Specifically designed to create the ultimate seal to keep out any unwanted water drops.

The SCOTT Prospect Super WFS is the ultimate motocross racing goggle. It possesses the same great features as the Prospect WFS, but the Super WFS version features a double WORKS lens with the unique addition of premium anti-stick dots for hyper-smooth sliding action and an upgraded mudflap with sealing tape for maximum performance. It comes equipped with a WFS0 roll-off system for a large and clear field of vision when the mud starts spraying. The canisters can be clipped directly on the WORKS lens pins for quick and easy installation, with no tools required. Tear-offs can then be easily installed on the same pins for extra vision protection.

PROSPECT

OPTIMAL PERFORMANCE WITH ENDURO-SPECIFIC FEATURES

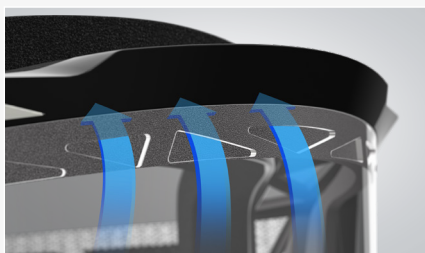

ENDURO

Designed to perform in the toughest conditions on the planet, the Prospect Enduro features a double lens and an air control ventilation system to ensure your vision remains crystal clear no matter where you find yourself riding.

DOUBLE LENS

Spacer Foam and Double Lens block moisture and eliminate fogging while allowing for optimal breathability.

AIR CONTROL SYSTEM (ACS)

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle resulting in a sophisticated ventilation system against condensation and fogging.

ANTI-FOG ON INNER LENS

Enduro double lenses include a soft inner lens which features a stronger built-in anti-fog solution than any other SCOTT lens. When riding Enduro races fog should never be an obstacle.

The SCOTT Prospect Enduro Goggle is designed specifically for the modern enduro rider. Boasting the same great features as the Prospect, it also comes with a double lens with Air Control System that prevents fogging and gives the enduro rider extra-clear vision in low-speed situations. In addition, it features an innovative SCOTT Lens Lock System and NoSweat face foam. To avoid slipping of the goggle, it is equipped with an extra-wide, no-slip silicone strap. This strap, together with the articulated outriggers, highly contribute to the improved helmet integration.

FRAME TECHNOLOGIES

PROSPECT

DESIGNED TO DEFEND YOUR VISION FROM THE SMALLEST GRAINS OF SAND

SAND DUST LS

In the desert or on the beach, the Prospect Sand Dust LS is constructed with specifically engineered foam that ensures the sand stays out of your eyes. Paired with a Light Sensitive lens which adapts to sunlight intensity, this is the ultimate goggle for all sand-based riding.

SMALL PARTICLE VENT FOAM MEMBRANE

To avoid any sand or dust-sized particles getting into the frame, all SCOTT Sand Dust goggles are mounted with a closed cell membrane instead of the traditional open cell vent foam. This technology guarantees perfect isolation from the elements.

LIGHT SENSITIVE LENS CAT. 1-2

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. These lenses react to light changes and within seconds the lens will darken when the brightness gets stronger or lighten when the sunlight gets weaker.

LENS LOCK SYSTEM

With this feature SCOTT guarantees the safest lens retention on the market. It features 4 locking pins that go through the lens keeping the lens in no matter what.

The SCOTT Prospect Sand Dust Light Sensitive Goggle has been specifically designed for use on beaches, in deserts and out in the dunes. The already exceptional features of the Prospect goggle are paired with the revolutionary Dust Catcher foam. Ride freely without worrying about even the smallest dust or sand particles getting inside your goggles. This assurance, combined with a large field of vision, the innovative SCOTT Lens Lock System, articulated outriggers and a Light Sensitive lens that adapts automatically to sunlight, are everything you need for your next ride.

FURY.

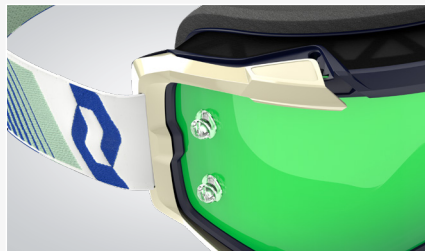

LOW PROFILE, HIGH PERFORMANCE

The younger brother of the Prospect, the Fury is a lightweight option that doesn't compromise on safety or style. Pushing the limits of field of vision, comfort and lens retention, the Fury is a perfect choice for all levels of rider.

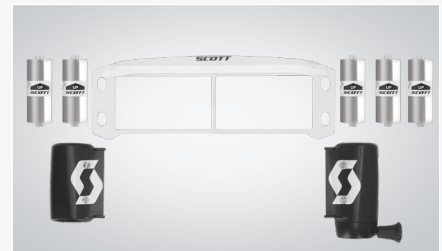

MASSIVE FIELD OF VISION

Carrying the same lens as the Prospect goggle, we are proud to say that the Fury offers the largest field of vision on the market. The large lens combined with a thin frame construction brings the lens closer to your eyes, maximizing the overall field of vision.

LENS LOCK SYSTEM

Transferred from the Prospect to the Fury Goggle, our innovative Lens Lock System is another highlight that distinguishes this new goggle. With the Lens Lock System it guarantees you the safest lens retention on the market and enables you to change your lens anywhere anytime.

PROSPECT ACCESSORY COMPATIBLE

WFS 50, lens, anti-stick grid or mudflap – any of these accessories can be used for both our Fury and Prospect Goggle. This makes it very convenient to switch from one goggle to the other without worrying about the right accessories.

The SCOTT Fury Goggle is guaranteed to shake things up. Shaped by innovation, technology and design, the Fury follows in the steps of our flagship goggle, the Prospect. Featuring our proven SCOTT Lens Lock System, 3-layer face foam, no-slip silicone strap, and supporting all the same accessories as the Prospect, this low-profile, high-performance motocross goggle was fully developed to Defend Your Vision in any and all conditions.

0001113

The SCOTT Fury WFS comes equipped with all the same great features as the standard Fury. This upgraded version comes with a pre-installed WFS50 roll-off system, offering a large, clear field of vision even in the muddiest conditions. The canisters can be clipped directly on the WORKS pins of the lens, which makes their installation much easier and less time-consuming. It takes almost no effort as there are no tools required. It also makes the switch from roll-off to tear-off simple and fast. The improved, transparent anti-stick grid offers a better field of vision, easier installation in the canisters, better sliding on the lens and better sealing with the lens at the top.

SPLIT

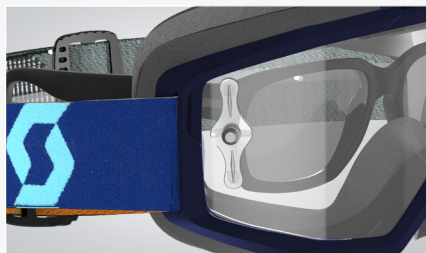

THE ULTIMATE GOGGLE FOR WEARING OVER THE GLASSES

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long.

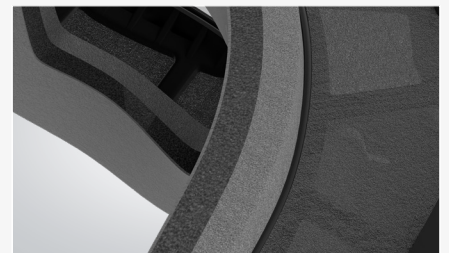

INTEGRATED RAM AIR SYSTEM

This innovative new intake system is engineered specifically to increase air-flow to reduce the risk of your glasses or goggle lenses fogging up.

OPTIMIZED FOR PRESCRIPTION GLASSES

Specially designed to offer maximum comfort and an ergonomic, secure fit when worn over your regular prescription glasses.

3-LAYER FACE FOAM

SCOTT's 3-Layer Face Foam incorporates three layers of foam to provide maximum comfort and help wick away moisture.

The new and fully updated SCOTT Split OTG Goggle is the ultimate goggle for wearing over the glasses. A new integrated RAM Air System dictates the flow of air coming into the goggle through the top spoiler to ensure the lenses don't steam up and stay crystal clear all day long. SCOTT'S OFF-ROAD INJECTED MOLDED AMPLIFIER LENSES UTILIZE A UNIQUE LIGHT TRANSMISSION CURVE TO OPTIMIZE CONTRAST AND OPTICAL CLARITY.

WHAT IS CONTRAST?

The SCOTT Amplifier tint is designed to let through some specific colors to your eye while filtering out others, in order to create a high contrast within the terrain you are looking at.

HOW DOES THE EYE PERCEIVE CONTRAST?

Through years of research we have learnt that our eyes are better at perceiving certain wavelengths than others. The eye can be thought of as the lens of a camera. There are parts and mechanisms inside the eye that control the vital role in our ability to see things in focus, color, darkness and brightness. By controlling what is let through the Amplifier lens, we can control how the external environment is perceived.

SCOTT AMPLIFIER TECHNOLOGY IS AVAILABLE IN VARIOUS OFF-ROAD LENS OPTIONS

CONTRAST AMPLIFIED

SCOTT sets the industry standard for contrast enhancing optics with its patented amplifier lens technology. The secret to amplifier technology is its ability to add contrast while increasing clarity and definition in all racing conditions.

MAIN BENEFITS

- Allows you to see contours, ruts and transitions in the dirt in ultra-high-definition
- Works for both motocross and enduro
- Builds speed and confidence through improved visual clarity

SCOTT PROSPECT AMPLIFIER TECHNOLOGY LINE UP 2023

SCOTT LIGHT SENSITIVE LENSES

ONE LENS FOR EVERY LIGHT CONDITION

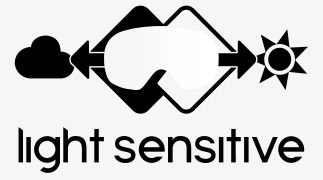

SCOTT's Light Sensitive lenses engage photo-chromic technology and adapt automatically to sunlight intensity to give you ultimate vision on the track regardless of the light conditions. These lenses automatically react to light changes and within seconds the lens will either darken when the brightness gets stronger or lighten when the sunlight gets weaker. This means going from bright sun into sudden shade has never been easier.

SCOTT WORKS LENSES

SCOTT'S INNOVATIVE WORKS LENSES SET OUR GOGGLES APART FROM THE REST.

Featuring SCOTT's historic technology, the WORKS lens enables the rider to use the same lens for both tear-offs and roll-offs. With these do-it-all lenses, you can be fully prepared for whatever the weather might throw at you. Thanks to the factory-installed WORKS pins, scott roll-off systems or tear-offs can be easily and quickly mounted and removed depending on the race profile and track conditions.

4-PIN WORKS LENSES

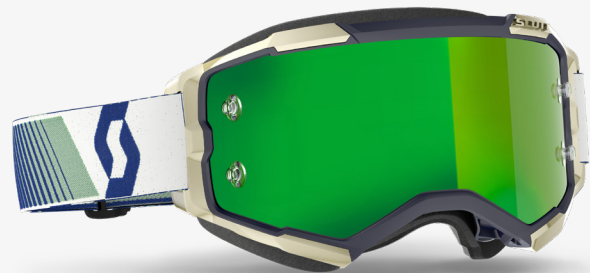

For the larger lens on the SCOTT Prospect and Fury goggles, the 4 pins provide more stability for the tear-offs and the WFS50. With this system the accessories will always remain tight to the lens and provide the rider with a better vision.

FRAME & FOAM TECHNOLOGIES

Foam Technologies

NO SWEAT FACE FOAM

SCOTT's unique NoSweat Face Foam consists of a microfiber layer that is extremely water absorbent. It soaks up moisture fast and avoids sweat getting into your eyes or inside the goggle.

3 LAYER FACE FOAM

SCOTT's three-layer, open-celled face foam with fleece has excellent moisture-absorbing properties, and offers increased levels of comfort and an improved fit thanks to the extra layer of protective foam.

2 LAYER FACE FOAM

SCOTT's two-layer, open-celled face foam with fleece has excellent moisture-absorbing and thermal properties, ensuring that you stay warm, dry, and comfortable all day.

1 LAYER FACE FOAM

Thanks to the large, soft, single density face foam, a precise fit around facial features is provided while sealing out the elements.

DUSTCATCHER VENT FOAM

Dustcatcher vent foam is a purpose-engineered vent foam that has finer holes than standard to stop dust getting through the foam and into your goggles and eyes. Essential for any form of desert, beach or sand racing.

Frame Technologies

SILICONE STRAP

Adhered silicone strips on the inside of the goggle strap ensures the goggles stay in place on your helmet.

LENS LOCK

The SCOTT Lens Lock System has been designed to guarantee the safest lens retention on the market. To avoid the lens coming out, this innovative Lens Lock System features four locking pins that go through the lens instead of grabbing it from the top.

ARTICULATING OUTRIGGERS

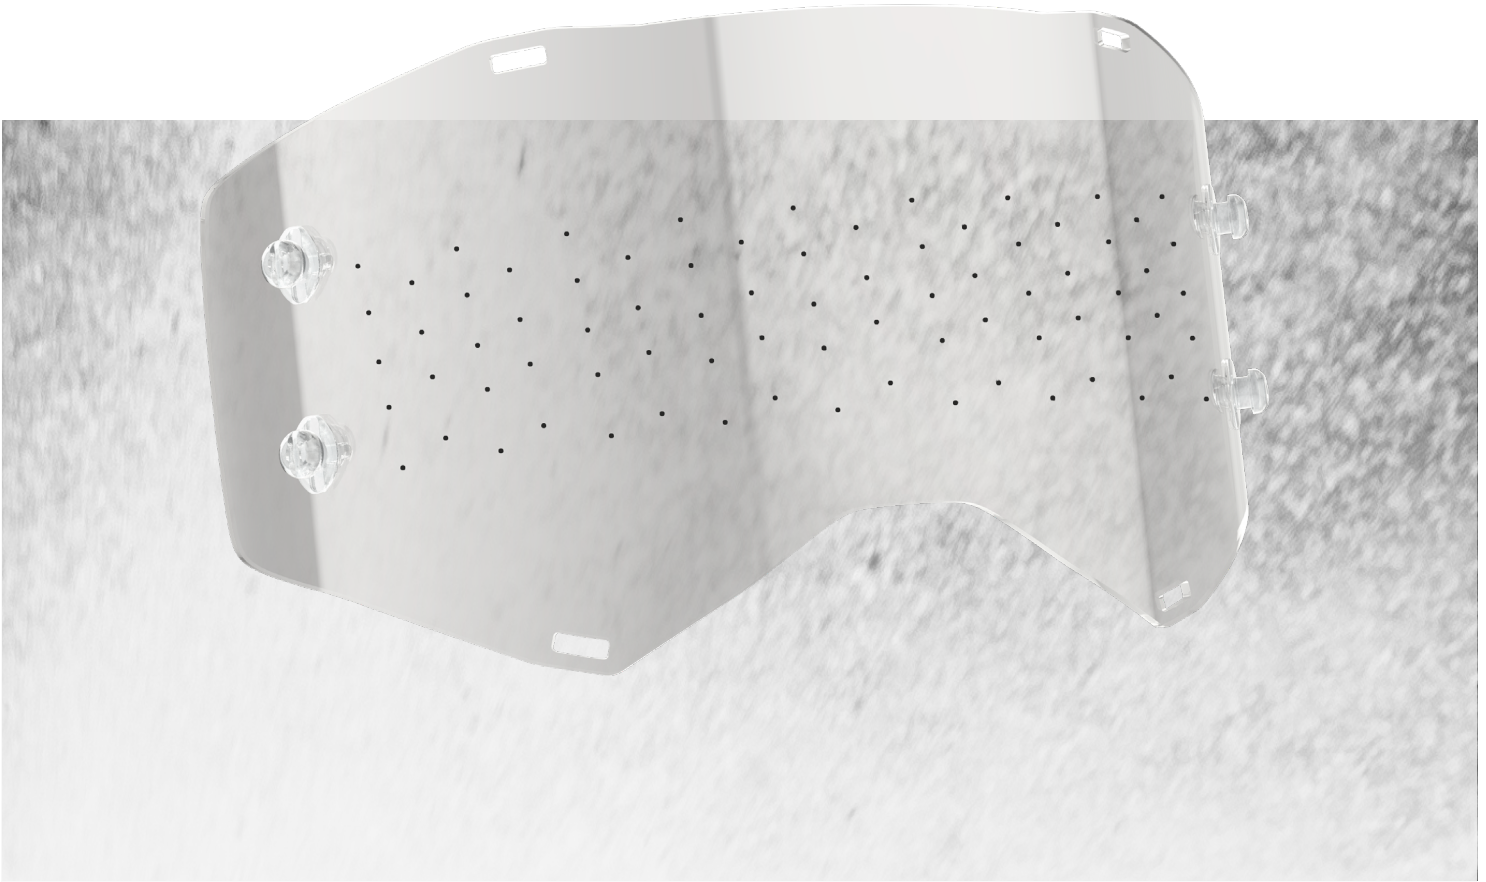

The Prospect has two pivoting outriggers that adapt to any helmet shape and size. The resulting pressure created by the goggle on the rider's face provides a complete and consistent seal.

RAM AIR

RAM (Revolutionary Air Management) System increases the airflow inside the goggle frame to avoid moisture on the lens.

LENS TECHNOLOGIES

Lens Technologies

LIGHT SENSITIVE

SCOTT Light Sensitive lenses engage photochromic technology and adapt automatically to sunlight intensity. Light Sensitive lenses react to light changes and within seconds the lens will darken if the sunlight gets stronger or lighten if the sunlight gets weaker.

AMPLIFIER

Amplifier is a technology to optimize visual contrast and clarity. The unique aspect of Amplifier is the shape of the visible light transmission curve, optimizing three specific wave lengths which are the most important for the human eye to enhance contrast and clarity.

ANTISTICK GRID WITH MUDFLAP

The anti-stick grid with an integrated mudflap provides a clear view throughout the entire ride. The mudflap is made out of a transparent material that offers a larger field of vision in dusty or less extreme conditions.

ANTISTICK DOTS

To ensure the smoothest film transfer possible, anti-stick dots on the lens provide pro-level performance when you need it most.

ACS

ACS ventilation incorporates lens air intake vents on the goggle lens and frame air outtake vents on the bottom of the goggle. The result is a sophisticated ventilation system that helps prevent condensation and fogging.

OTG

OTG goggles offer protection from the elements and an optimized fit for people requiring prescription glasses, thanks to a specific and adapted construction.

SCOTT TRUVIEW

SCOTT TruView lenses are lightweight and block 100% of harmful UV rays.

NOFOG

SCOTT lenses undergo a permanent NoFog™ treatment process to prevent condensation and fogging.

IMPACT RESISTANCE

In order to ensure that riders are safe from the impact of pebbles and flying debris, all SCOTT lenses not only meet, but exceed the required impact resistance standards required for MX lenses.

CHROME COATING

SCOTT chrome coating offers unmatched style for your goggles while controlling light transmittance.

UV PROTECTION

100% UV Protection All SCOTT lenses are optically engineered to screen out 100% of harmful UVA/UVB rays.

SCOTT WFS50 ROLL-OFF SYSTEM

DEFEND YOUR VISION

The SCOTT 50mm Works Film System (WFS50) is the ultimate solution to keeping your vision clear in muddy conditions. A larger than average film, easy to install canisters and intelligent design makes the highly reliable WFS50 roll-off system the no. 1 choice of pro and amateur riders alike.

INTEGRATED CANISTER DESIGN
Fits perfectly with Prospect outriggers

LARGE 50 MM FILM
Increased visibility

ANTISTICK GRID AND TRANSPARENT MUDFLAP
Increased performance & protection

CLICK ON CANISTERS
Quick and easy to install

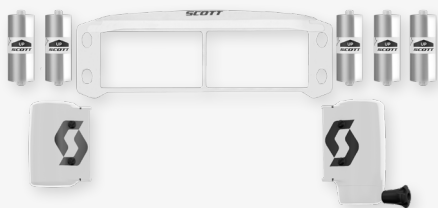

50 PULLS
Ample roll for a long race

ULTRA-DURABLE HOUSING
Stops the film from unraveling mid-race

PREMIUM PULL MECHANISM
Smooth & reliable action
