

OFFROAD GRIPS

SCOTT LOCK ON GRIPS

CONTROL MATTERS

SCOTT Lock On Grips take rider control to the next level. Featuring the latest technologies and premium features, these grips offer riders the same pro-level performance as our traditional grips, with the extra benefit of quick and easy installation.

IMPROVED SAFETY

Thanks to our premium alloy clamps, SCOTT Lock On Grips will stay in place no matter what. Once locked in place, there is no chance of the grips slipping on the handlebar.

VIBRATION REDUCTION TECHNOLOGY

Vibration reduction in our clutch-side Lock On Grip is achieved through our strategically windowed core. The window is positioned so that it is in line with riders hand when in the riding position. Even though you can't feel the window when mounted on a handlebar, the soft material which fills out the window greatly reduces vibrations compared to a standard solid core.

FAST AND EASY INSTALLATION

With the SCOTT Lock On Grips there is no need for safety wire or messy grip glue. There are 24 locking points, offering maximum options to place the grips in exactly the position you like. Installation is super-fast and there is no time wasting whilst you wait for glue to dry after installation. Simply lock on and ride!

CAM COMPATIBILITY

Our Lock On Grips are supplied with multiple cam sets to fit the most common models of dirt bike. Simply select the right Cam for your bike from our Cam Compatibility Table, install it and you're ready to go.

PREMIUM RUBBER

By using our tried and tested SXII rubber grip pattern, the SCOTT Lock On Grips offer riders maximum control and longevity in all conditions.

SCOTT SX II LOCK ON GRIP + CAM SET

292452

black/grey
1001

The SCOTT SXII Lock On Grips are the result of over 50 years of SCOTT's experience making market-leading motocross grips. Capitalizing on this experience and technical know-how, the SCOTT engineers used the latest cutting-edge materials and manufacturing processes to create a motocross grip that offers all the control and comfort you need, whilst also making installation a breeze. No grip glue or wire is required to mount the grips and any form of grip slippage is completely eliminated. With our tried and trusted SXII diamond rubber pattern combined with vibration reducing construction, the SXII Lock On grips will provide a premium riding experience for any level of rider.

FEATURES:

- Lock On mechanism
- Anodized Alloy Clamp
- Cam set included for most 2 & 4 stroke bikes
- Quick and easy installation without glue or wire
- Double density grip
- Anti-vibration construction
- Full Diamond design
- Firm density inner compound
- Soft density outer diamond pattern

SCOTT DIAMOND + DONUT GRIP

219626

The SCOTT Diamond Grip is a triple density grip that focuses on reducing arm fatigue without sacrificing control. The medium density waffle pattern delivers maximum comfort and durability while the soft density diamond pattern area reduces vibration, arm pump and fatigue. The firm density end cap offers more durability. Included Neoprene grip donuts help reduce abrasion and thumb blisters.

FEATURES:

- Triple density grip
- Full Waffle design
- Integrated safety wire channel
- Grip donut included

SCOTT DEUCE + DONUT GRIP

219627

The SCOTT Deuce Grip is a half-waffle, dual compound grip designed to offer maximum grip and comfort. With a medium density raised waffle pattern and a soft density palm area, this grip fights vibration, arm pump and fatigue.

FEATURES:

- Double density grip
- Half Waffle design
- Soft density palm area
- Integrated safety wire channel
- Grip donut included

SCOTT SX II + DONUT GRIP

219624

The SCOTT Grip SX II is a dual density grip with a soft density diamond pattern surrounding a firm density core and end cap. The raised diamond texture offers incredible grip while the soft compound helps reduce arm and hand fatigue. Included grip donuts help reduce abrasion and thumb blisters. This grip is a top choice amongst many top racers and weekend warriors alike.

FEATURES:

- Double density grip
- Full Diamond design
- Firm density inner compound
- Soft density diamond pattern
- Integrated safety wire channel
- Grip donut included

SCOTT MELLOW + DONUT GRIP

269305

The SCOTT Mellow Grip is a double density grip with a Vario Blok design surrounding a firm density core. The soft density Vario Blok pattern offers good grip and helps reduce arm and hand fatigue. Grip donuts against abrasion and thumb blisters are included as well.

FEATURES:

- Double density grip
- Vario Blok design
- Firm density inner compound
- Soft density Vario Blok pattern
- Integrated safety wire channel
- Grip donut included

SCOTT RADIAL FULL WAFFLE GRIP

233925

The SCOTT Radial Full Waffle grip is based on the Hurricane Full waffle grip which was the standard by which most grips are based. Radial Full Waffle grip features a tried and true design that has been around for decades. Featuring a full waffle design, the Radial grip offers a dependable feel many top racers have come to expect.

FEATURES:

- Single density grip
- Full Waffle design
- Integrated safety wire channel

SCOTT RADIAL HALF WAFFLE GRIP

233927

The SCOTT Radial grip is a single density half waffle grip. A half waffle pattern on one side and a low profile pattern on the other offers great grip and comfort. This traditional grip is a top choice amongst many top racers and weekend warriors alike.

FEATURES:

- Single density grip
- Half Waffle pattern
- Soft palm area
- Integrated safety wire channel
