

PROTECTION

PROTECTION TECHNOLOGIES

The new protection standard

THE SAFER PROTECTION

SCOTT AirFlex protection excels with a SCOTT exclusive D3O® design that protects what matters. Improved protection along the spine with extended support in the crucial lumbar area reduces the risk of injuries by absorbing any type of impact. All of our protection are certified according to current European standards – EN 1621-2. We are proud to offer protection that goes beyond this standard and elevates your safety by covering more of your crucial body parts.

VENTILATION. MAXIMUM AIRFLOW

Gone are the times when back protectors were adding heat. With strategically placed air vents, AirFlex controls body temperature by allowing maximum airflow. Keep your body at the right temperature in every moment.

COMFORT THROUGH FLEXIBILITY

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but hard as a diamond in the event of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

Technology

D3O® IMPACT PROTECTION TECHNOLOGY

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection. The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

SHOCK ABSORPTION

Unique technology that focuses on energy absorption and protection.

LIGHT & FLEXIBLE

Provides maximum comfort and protection at the same time.

CE CERTIFIED

Integrated D3O® protectors allow for highest levels of safety according to CE EN 1621.

Features

SOFT-SHELL

Soft-shell construction offers more flexibility and comfort.

EASILY WASHABLE

Inserted protective plate is easily removable and washable.

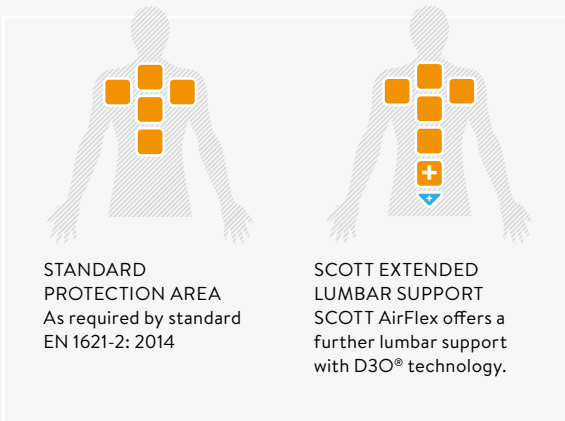

BACK-PACK FRIENDLY

Some of our plates are so thin that you can even wear a backpack over them.

LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area.

PROTECTION BEYOND STANDARDS EXTENDED LUMBAR SUPPORT

For improved protection of your back and spine, with extended support in the crucial lumbar area. We are proud to offer protection that goes beyond the standard and elevates your safety by covering more of your crucial body parts.

CERTIFICATION

All our protectors are certified according to current European standards - EN 1621-2: 2014.

LEVEL 1

The innovative AirFlex plate is made with an exclusive D3O® material for ultimate protective performance. Strategically placed vents and a flexible design mean optimal airflow and maximum comfort.

Withstands 5kg impacts with no more than 18KN of force transmitted.

PERFECT FOR: Versatile riders who seek a lightweight protector

SOFTCON JUNIOR PROTECTION COLLECTION

PROTECT WHAT MATTERS

SCOTT's range of Softcon Junior protection sets new standards in kids off-road protection. Constructed using our innovative AirFlex technology, the Softcon Junior range provides users with certified protection as well as market-leading ventilation, freedom of movement and comfort.

D3O® is a unique material that focuses on energy dispersion in critical areas for maximum shock absorption and protection.

The functionality of the raw material originates from the synergetic effects of the polymer-based dilatant. Energy is distributed throughout the synthetic elastomeric polymer and the enhanced chemistry continues to disperse the energy throughout the matrix, significantly reducing the effect of impact.

Performing at your best requires maximum freedom of movement. While protecting against any energy impact, AirFlex is light and follows your every movement. Soft as a marshmallow, but as hard as a diamond in case of an impact, AirFlex with D3O® feels like a second skin that adapts to your body.

We take safety seriously and the protection team at SCOTT is passionate about it. We see it as our key goal of who we are and the protection that we produce. We are proud that our full protection range is equipped with the latest safety technologies.

SCOTT SOFTCON JUNIOR JACKET PROTECTOR 278467

The SCOTT Softcon Junior Jacket Protector sets new standards in kids' upper-body protection. The revolutionary soft ventilated D3O® plate design offers fully certified levels of safety and maximum freedom of movement, whilst simultaneously providing greatly increased airflow to the body. The breathable protection plates combined with strategically placed anti-moisture panels mean this jacket works hard to keep you cool and dry when the action heats up. Designed for the youth rider who wants fully customizable upper-body protection that doesn't restrict their riding, the Softcon Junior Jacket Protector is the best option out there.
